ROGERS DECLARES CHEAP CAR IS THE "BURNING ISSUE"

(Special To The News)

NEW YORK, Nov. 20.—I am a great believer in all things happening for the best. Now take Raskob, I guess it's just as well he wasn't a success in politics, for don't he go right to work and put out the cheapest six-cylinder car on the market?

A cheap car means more to the people than all the "burning issues of this great campaign."

Now maybe after Jan. 1, Al will settle down and get his mind on something practical.

Hoover has to hurry up and get to South America before Calvin makes a speech and declares war on 'em.

Yours,

WILL.

Suit pressers did a business yesterday. The kind of places where the boys go in, slip behind a screen, doff their trousers, and presto, they appear in 10 minutes with their breeches spick and span once more. Shoe shiners say that this is a poor kind of weather for shines; s'no use to get a shine for it will last but a very few minutes.

Did you notice that the cat mascottess of the Vestris was saved and is now safe and warm back on dry land with hardly a thrill out of the experience? And have you noticed that practically every mascot in any fatal expedition or tragedy is always brought back safely. They must lead charmed lives.

Mebbe we can drive down to Peru or some other part of a Brizillian jungle in the near future. An automobile association says that Hoover's visit is just before a highway congress down there and will have a great effect on the building of roads which will link up the two sections of the hemisphere.

Archbishop Alexander, a New Yorker and traveller over both hemispheres who was in town over the past weekend told Pa Newc that he liked New Castle. He saw some of the new buildings, Cathedral, etcetera and said few towns where he had been that were the size of New Castle could equal them.

Lawrence county may be an industrial center but farming does not have to take the background. There are a great number of farms in the county. There are more farm clubs of various pig, potato, poultry, classifications than labor organizations.

A little paper boy was being "guyed" by a couple of fellows in a down town restaurant. They asked him in jest to bring them some wine from home. The boy, with his broken English, said "We went for Hoover." How's that for summing up the prohibition question?

Fifty-Three Hurt; Trolleys Crash Near Pittsburgh

Trolleys Mostly Filled With Women And Girls En Route To Work Are Splintered

EAST LIBERTY CAR IS ALMOST SEVERED

Homestead Car Becomes Loose On Steep Grade And Plows Into Trolley

(International News Service)

PITTSBURGH, Nov. 20.—Fifty-three persons were injured, several seriously during the early rush hours today, when a Homestead street car ran wild down four blocks of a hill, crashing into an East Liberty trolley, and cutting it almost in half.

Most of the victims were women and girls, enroute to work. Unconscious passengers and those who were seriously injured were placed in passing automobiles and rushed to the hospital. Within fifteen minutes after the crash twenty had been admitted.

The East Liberty trolley was splintered by the head-on impact of the Homestead car. Police and firemen rushed to the scene to aid in extricating the passengers, many of whom were pinned beneath the wreckage.

Out Of Control.

The Homestead car, according to the details that could be learned from passengers who were only slightly injured, seemed to have gotten out of control at the crest of the Amity street hill. It rushed pell-mell down the grade, and crashed into the East Liberty car.

Some of the men and women on the car sat paralyzed with fright at the first realization of their danger. An instant later, the passengers became panic-stricken.

Men leaped to the motor cab in a vain effort to bring the car to a halt, while women screamed hysterically.

Injured Attended.

The crash brought scores of spectators to the scene. Physicians of the Homestead district were summoned to the place of the accident. Some of the injured persons were given first aid on the spot. Others were rushed immediately to the hospital.

Chicago Woman Likely To Aid In Murder Mystery

Beautiful Chicago Blond Reported In Hotel Room Night Rothstein Was Slain

IS BEING RUSHED TO NEW YORK CITY

Clothing Model May Have Valuable Information As To Occupants Of Room

(International News Service)

CHICAGO, Nov. 20.—A young Chicago clothing model—blond, beautiful and married—believed to hold the key to the Arnold Rothstein slaying mystery, was speeding to New York today as the "guest" of two detectives.

She is Mrs. Ruth Keyes, 24, wife of a Chicago railroad broker.

It is learned Mrs. Keyes not only was in New York the night of the murder, but that she was in the same hotel—The Park Central—and in the same room in which Rothstein was killed.

She said she was admitted to the room—number 349—by a man she knew as "Jack" and with whom she did some drinking. She declared "Jack" called ti "his room" and that she did not know Rothstein had been murdered there until she read it next day in the newspapers.

Joseph Daley and Edward Fitzgerald, the New York detectives, with Mrs. Keyes are due in New York at 6:50 tonight.

Floyd Keyes, the girl's husband, admitted the detectives had called for his wife and that she had accompanied them to New York.

"She is not under arrest," he quick-

Percy L. Craig Makes $400 Donation To Band At Senior High School

Buys Capes For Uniform Of Every Member Of School Band

Appreciation Of Courtesy Of Students In Vicinity Of His Home

It pays to heed the old adage, be obliging when possible. Through the cooperation of the student body of senior high school, the senior high band boys will soon have modern up-to-date capes to wear with their recently acquired new uniforms, a gift of approximately $400.

The story back of the purchasing of 57 capes for the band is rather interesting.

Percy L. Craig, well known Lincoln avenue resident, had been ill for the past several weeks, and was considerably annoyed by the students of senior high at noon-time and after school by the noise that they made while traversing the alley back of the Craig home. Mr. Craig's rest and sleep were disturbed by the "racket".

A request was sent to senior high by Mr. Craig asking the students to be less noisy in passing his home. This request was complied with by the school boys and girls to such an extent that Mr. Craig thought that it would be a good idea to reciprocate in some suitable manner.

U. S. Inspector Is First Witness In Vestris Probe

Second Investigation Of Sinking Of Vestris Under Way In New York

INSPECTOR CLAIMS INSPECTION MADE

Reports That 68 Of 691 Life Belts On Boat Thrown Away Before Sailing

By JAMES L. KILGALLEN
International News Service Staff Correspondent

NEW YORK, Nov. 20.—The second investigation into the Vestris disaster which cost 110 lives when the liner sank off the Virginia capes a week ago Monday was started at the customs house today. The hearing was conducted by D. N. Hoover, supervising inspector general of the steamboat inspection service, assisted by former Governor E. F. Morgan of West Virginia and Walter F. Brown, assistant secretary of the department of commerce.

Inspector Testifies.

Edward Keane, government inspector of steamship hulls, who was the first witness today, testified that 68 of the 691 life belts on the ill-fated liner were rotten, and were thrown out before the ship left on her last voyage.

Keane, who spoke with a broad Irish brogue, testified he had been an inspector of hulls for 17 years. When he told of his long experience with shipping before entering the U. S. government service Hoover asked him:

"Were you ever the captain of a ship."

"Yes," replied the witness, "for seven years I was the captain of a British ship."

Inspected Vestris.

"Did you inspect the lifeboats and life preservers on board the Vestris?" asked Hoover.

"Yes," answered the witness, "I did so."

Hoover asked: "Were you compelled to do the job hastily?"

The witness replied: "No, I had four days in which to do it while the liner was in port here. That was ample time."

Keane said he spent the first of four days going over the life preservers and testing each thoroughly.

"Altogether I examined 691 life preservers," he said.

"Were any of them found to be in unsatisfactory condition?" asked Hoover.

"Sixty-eight of them were found to be rotten and were thrown away," replied Keane.

Keane arose from his seat from time to time and gave an illustration with his hand as to how he had gone over the life belts and had tested the lifeboats, looking for flaws. He was an emphatic witness.

Examined Lifeboats.

Keane said he had examined the

Big Storm Hits Wyoming Valley In Pennsylvania

Damage Of $200,000 Reported From Severe Storm Near Wilkes-Barre, Pa.

SCORE OF PERSONS RECEIVE INJURIES

Buildings Destroyed, Houses Unroofed, Communication Disrupted

(International News Service)

WILKES-BARRE, Pa., Nov. 20.—Damage estimated at $200,000 was left in the wake of a storm that swept through Wyoming valley late yesterday, injuring a score of persons, destroying buildings, unroofing others and disrupting communications.

The heights section of the city received the principal blow, the wind doing the most damage there since the memorable cyclones of 1914 and 1890. In two city wards few homes had windows. Trees were uprooted, telephone poles blown down. The force of the wind turned one house over completely, splintering the heavy beams like matchwood.

Four of the injured were trapped when they sought shelter in the Lehigh & Wilkes-Barre shifting shanty which was carried away.

Police and firemen were on duty throughout the night. Pennsylvania Power & Light company employes succeeded in making temporary repairs.

Hurt In Accident On Harbor Road

Ivor Thomas, 1117½ South Mercer street, is in the New Castle hospital seriously injured, as a result of an accident occurring early Monday morning on the Youngstown road near Harbor Bridge, when the car in which he and three other young men enroute to this city, overturned.

The other occupants of the car escaped injury. Mr. Thomas sustained serious lacerations of the left knee and left leg and it is feared that he may have sustained internal injuries. He was removed to the New Castle hospital, where he is doing as well as could be expected. The automobile was wrecked.

Body Of Girl Is Laid To Rest In Drizzling Rain

Remains Of Emma Alley, Murdered Girl, Now Sleep In Savannah Cemetery

CHANGE MADE IN TIME OF FUNERAL

Officials Working Hard On Case And Expect To Be Able To Solve Mystery

In a drizzling rain, as the shadows of evening were lengthening over the surrounding landscape, the body of Miss Emma Alley, 16-year-old daughter of Mr. and Mrs. Samuel Alley, was laid to rest Monday in Savannah cemetery. It was the last scene in the tragedy which opened last Saturday morning when the lifeless body of Miss Alley was found lying in a little run on the Savannah road, victim of a murderer.

The funeral cortege was followed from the modest little home of the Alleys in Shenango township largely by friends and acquaintances of the deceased. Services were conducted at the house by Rev. Claude Downs, pastor of Savannah M. E. church. That there were not more at the funeral was due to the fact that the hour of the services was changed between the time that it was given to The News and the time the funeral was held. The News was given the hour of the funeral as six p. m. about two o'clock Monday afternoon.

To Escape Curious

It is probable that owing to the nature of the case the family expected that there would be many attend through curiosity, and for this reason changed the time to 4:30 p. m. It is said that friends and near relatives were notified so that they could be on hands at that hour.

While no arrests have yet been made by city, county or state officials, it is reported that progress is being made toward a solution of the mystery. So far officials have called in for questioning a number of young men who were known to have been acquainted with the girl. Also her father, brother and other members of the family have been asked for their stories in the hope that they may throw some light on the case.

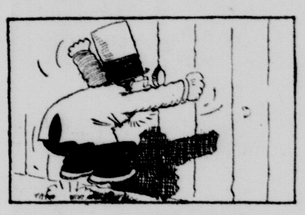
Hunt for Motive

There are a number of circumstances surrounding the case which are of a very puzzling nature. Authorities are now trying to work them out. Several theories of the murder are under consideration. There is a difference of opinion among some of the officials on a number of points but all possible clues, no matter how slight, are being followed.

Many stories regarding the case are being circulated, and many theories are being advanced, and it is expected that in a few days they will take tangible form or result in an arrest.

Coroner J. P. Caldwell will likely delay the inquest until next week, while officials are endeavoring to secure evidence.

Arthur Mometer



The wind roars down the wide sky lanes and pounds at the kitchen door and baffled there he goes round the house with a shriek and a whine and a roar. He pounds the windows with mighty gusts and hammers with flurry and storm, but safe inside are the little tikes, cozy and snug and a warming glow there's peace in those scarlet flames and out on the floor with a pile of toys, the youngsters enjoy their games. And these are the things we are thankful for, that folks can be warm and gay, that we are protected from frost and storm, its forty-two today.

Cowardly Bunch, Says Harry Fay Of Vestris Crew

(BULLETIN)
(International News Service)

PITTSBURGH, Pa., Nov. 20.—"The crew of the Vestris was the cowardliest bunch of seamen that were ever on a sinking ship," Harry Fay, Charleroi, Pa., boxer and survivor of the ill-fated vessel, charged today.

Fay was en route to South America to fight Luis Firpo when the ship sank off the Virginia Capes.

Fay was unwilling to commit himself on Captain William J. Carey.

"Up until the ship disappeared Carey paced the deck, smiling and smoking a cigar," the fighter said.

Fay refused to amplify his charges on advice of a friend who accompanied him to the federal building here, where the fighter went to replace his passport, lost in the sea disaster.

The fighter criticized members of the crew who have accepted theatre contracts on the strength of their experiences.

He had no criticism of the passengers on the ill-fated Vestris.

"Most every man had to save himself and help in saving the women," he said.

The hunters will be permitted to enjoy the sport during the remainder of the hunting season.

And by the way, Pa Newc hasn't heard a word from the big game hunters as yet. Note several hunting parties have gone to the mountains but reports of the bag of game are as yet missing.

Too many boys are being arrested in this city for robbery of stores. It appears to Pa Newc that there are a lot of parents in this city that could do a little investigating as to their children's whereabouts and actions, with profit to both.

New Castle and Lawrence County police officials we believe, recognize their responsibility to the community in running down every clue possible in the brutal slaying on Emma Alley, and staying at work on that case until the perpetrator of that crime is located and pays the penalty. The crime at the present time bears the earmarks of an unsolvable mystery but that is all the more reason why there should be no let up in the efforts at solution.

FIFTY-THREE HURT; TROLLEYS CRASH NEAR PITTSBURGH

(Continued From Page One)

Railways Company arrived shortly after the crash and cleared away the wreckage of the splintered cars.

This is the third trolley crash within the last six months here. Two children were killed in a similar crash in Braddock. Another crash occurred on the Washington trestle on the Washington-Charleroi line.

The Braddock crash resulted when an empty trolley car ran wild down a hill, leaving the tracks and smashing into two store fronts.

A. B. Harbert of Duquesne, motorman of the Homestead-East Liberty trolley, was hurled through the window of his car cab by the force of the crash. He suffered a broken leg and severe lacerations and shock.

J. W. Henry of Homestead, operator of the Homestead Park car, received cuts and bruises.

The Homestead-East Liberty car was struck head-on in the middle by the Homestead Park trolley. It was practically demolished by the runaway car, which catapulted through its side.

G. M. Longis, superintendent of transportation for the Pittsburgh Railways Company, rushed to tht scene of the accident immediately upon notification. He reported that Motorman Henry had apparently lost control of his car.

Harbert, motorman of the demolished Homestead-East Liberty trolley, when questioned at the hospital where he was taken after the accident, said: "I don't know what happened."

Passengers on the run-away car, some of them in hysteria over their narrow escape, vindicated Palmer, the switchman, in describing the wild ride down Amity hill.

Mrs. Mary Atkinson of Homestead Park, one of the run-away car passengers, told investigators that Motorman Henry had apparently lost control. It was not until the car had gathered momentum and was bolting down the hill at a furious pace that she realized what danger they were in.

When the car reached the derailing switch, she told investigators, the motorman abandoned the airbrakes and attempted to stop the car with the hand-brakes.

As the car approached the derailing switch, Mrs. Atkinson said Henry yelled at the switchman to "get out of the way." The switchman leaped back and the car flashed past, jumped the track and crashed.

Amity hill, where the accident occurred, is a mile and a half long and has long been regarded as a dangercus stretch. Several accidents are said to have occurred there as a result of brake failure on the long steep grade.

U. S. INSPECTOR FIRST WITNESS IN VESTRIS PROBE

(Continued From Page One)

12 lifeboats hanging from davits on board the Vestris and the two extra lifeboats that were under the davits.

"There were two pounds of bread and a quart of water in each of the boats," explained the witness.

"I examined the flares and found them all in good condition."

The inspector then showed how he had gone over the boats with hammer and chisel hammering the sides of the craft to make sure the timbers were sound.

"The lifeboats of the Vestris stood a great deal," continued the witness. "They could not have stood more if they had been made out of India rubber."

Keane went into the details of his tests, saying he had put 65 persons in each of the 12 lifeboats to make sure of their capacity and then raised and lowered them from davits to make sure the mechanism was in working order. He did not, however, raise the extra two lifeboats.

"They too were in good condition," continued the inspector.

Examiner Hoover interrupted with the question:

"Was there a hole in any of the lifeboats? It has been testified at another hearing that one of the boats had a hole in it."

"No, sir, there was not a hole in any one of the lifeboats."

A charge that the inspectors were drunk was hotly denied by Keane.

Examiner Hoover interrupted the questions and replies to read a letter signed "Samuel Lawson" and addressed to J. L. Krone, superintendent of inspection service, which mentioned Keane and another inspector named Dennis. This letter, as read by Hoover, said in part:

"These two gentlemen had a hearty lunch the day they were making the inspection. They were sitting in the ship's bar drinking Scotch whisky. When they came out they showed weakness in the legs. This is the kind of inspectors you have. Murderers I would call them."

"This is the most outrageous lie I ever listened to. I never tasted a drop of liquor in my whole life. No man in America ever saw me take a drop of liquor," Keane almost shouted.

He denied that any officer on the ship offered him liquor and said there were customs and prohibition officers on the dock.

Keane's anger over the intimation of intoxication was so great that he waved his clenched fist as he testified.

Examiner Hoover said that an effort would be made to bring Lawson into the inquiry to testify and that United States District Attorney Tuttle, who is conducting another investigation, had promised his cooperation.

PERCY L. CRAIG MAKES $400 DONATION TO BAND AT SENIOR HIGH SCHOOL

(Continued From Page One)

rainy and rather disagreeable allaround, but the senior high band boys in their new uniforms, met at the high school and staged a sort of premature parade to the special train at the Pennsy station.

As the band boys filed down Lincoln avenue in front of the Craig home, Mr. Craig happened to observe them, and was immediately taken with the manner in which the boys appeared in their spic and span new red and black uniforms, but he noticed that they marched unprotected, and that the uniforms would be spoiled by the elements. This gave him an idea.

In communication with Principal Frank L. Orth of senior high, Mr. Craig proposed that the band should have new capes to protect their clothes. Mr. Orth placed a stamp of approval on this suggestion and was told by Mr. Craig to get in touch with the factory where the uniforms were secured and get the boys new capes and to just send him the bill.

To Be Delivered Soon.

Mr. Orth had occasion to be in Philadelphia several days ago and placed an order with a company there for 57 capes. The new capes of black material, with black lining, red collars, a black cord and a black silk tassle. The boys will no doubt present a natty appearance in their new regalia.

The company has promised to deliver the capes to senior high on November 26, and the senior high band will wear the new capes for the first time at the New Castle-South High Youngstown game.

The capes are said to be the finest on the market.

To say that the senior high band and student body appreciate the gift donated by Percy L. Craig would be putting it in very mild form.

CHICAGO WOMAN LIKELY TO AID IN MURDER MYSTERY

(Continued From Page One)

ly explained. "She is just going along voluntarily to do what she can to clear up this mystery. She is a good honorable girl and just happened to be at that hotel when Rothstein was slain."

Questioned Previous

New York police, according to Keyes, have been in almost constant communication with his wife. It was stated that the girl who had been questioned in New York after the murder and when it was learned she could throw no definite light on the case she was told to "go away and keep her mouth shut".

It was hinted in police circles here that the sudden swoop of the New York detectives was due to the demand of Mayor Walker that some action be taken in solving the murder of the gambler. It was not thought that the girl would be able to tell much. But taking her to New York will indicate "action".

Detective Dailey let it become known that the New York authorities are giving credence to the story of the crime as told by New York gamblers that came to Chicago a few days after the murder. This story was to the effect that George McManus was forced to lure Rothstein to the Park Central hotel where he was slain.

The New York detectives said they were taking the girl East to see if she could identify Willie McCabe, one of the men supposed to have been in the death room.

She admitted that she had met some friends and had done some drinking with them in room 349 of the Park Central hotel. This was the number of the room in which Rothstein was slain.

WILL SIGNATURE GENUINE, DECLARE SOME WITNESSES

(Continued From Page One)

built around the validity of the signatures to the will in dispute, using cancelled checks as standards of comparison. Attorney Roy W. Hazen, who had represented Mrs. Dean at various times, was called, and said that he was familiar with the signature of Mrs. Dean and that in his opinion the signature to the will was genuine.

Miss Jeanette W. Hutton, register and recorder, was called and testified to the persons who had been present at a hearing following the probate of the Dean will. She said that in her recollection there were present Attorney Roy W. Hazen, Orville Williams, F. A. Schultz, Miss Jane Ligo, Attorney Robert K. Aiken and perhaps some others.

Charles Blair, a bookkeeper for the Home Trust Company, was called and testified that it was his business to pass upon the validity of signatures to checks cleared through the Home Trust. He had seen many signatures of the late Mrs. Dean, had seen her signature record card, and that he believed the signature on the will was that of Mrs. Dean.

Bank Officer Called.

Mrs. Lucy Ann Coulter Fobes, aged S. A. Weinschenk, secretary and assistant treasurer of the Lawrence Savings and Trust Company, was called and said that he was called upon at times to decide upon the validity of checks, but that his decision was asked only when the signature was in question.

Attorney Henry Akens objected to his testimony being taken unless he could cross examine Mr. Weinschenk upon his qualifications as a handwriting expert. This was done whereupon Mr. Akens objected to Mr. Weinschenk being used as an expert, as he testified that he had not studied handwriting, but had only his experience to rely upon. Some argument between counsel ensued but Judge Chambers overruled the objection and the testimony was permitted. Mr. Weinschenk testified that in his opinion the signature to the will was valid.

This afternoon's testimony will probably be mainly technical testimony by George W. Wood a handwriting expert from Pittsburgh, Pa.

Monday Afternoon.

In the afternon session of Monday considerable time was spent by the attorneys in the identification of checks and the admission of testimony showing Mrs. Dean's physical condition.

Dr. C. A. Reed a physician and surgeon of this city for the past 40 years was called and testified that he had known the late Nellie M. Dean for the past 40 years and had attended her in the capacity of physician for the past ten. He testified that he had been called on December 22 and found the patient suffering from flu pneumonia. Dr. Reed was called the night Mrs. Dean died arriving at the home about ten minutes after death had stricken her suddenly.

Wouldn't Obey Orders.

Dr. Reed testified that Mrs. Dean would not obey his orders as to the taking of medicine unles she was very ill. At one time so said, she had told him that she knew what was good for her heart trouble as well as he did. On the night of her death Dr. Reed called Joseph E. Ligo and Orville Williams to the house.

J. C. Miner, treasurer of the Home Trust company testified that he had been working in bank work for many years and that his work had been that of familiarizing himself with checks that went through for payment. After examining a number of checks which are being used as standards he said that in his estimation the will signature on the will of Mrs. Nellie M. Dean was valid.

Mrs. Lee Davids a stenographer in the office of Aiken and Braham identified 71 checks which were drawn by her and signed by Mrs. Nellie M. Dean. These she said had been signed in her presence.

Miss Ruth McClure a professional nurse corroborated the testimony of Dr. C. A. Reed concerning Mrs. Dean's refusal to obey the orders of a physician and said that Mrs. Dean was a nervous woman, that she was set in her way and did not brook interference in her business affairs.

Mrs. C. A. Reed and Mrs. Ruth Dwyer identified several memorandums from Mrs. Dean. Much time was taken in the cross examination of witnesses and the actual amount of testimony taken was not large.

GLENN TRYON in HOW TO HANDLE WOMEN

College Life Film For Capitol Theatre
There's a romance about college and university life that lasts through the years after one has left the ivy covered walls behind. College pictures have always been popular, but it has remained for Charles "Buddy" Rogers, the star of "Wings" to make the greatest college picture of them all.
In "Varsity" Rogers reaches the heighths, and climbing the slopes of stardom with him is Mary Brian that appealing little miss who is now one of the most popular screen heroines.
"Varsity" comes to the Capitol Theatre Thursday, for a three day run. At the same time, four big acts of vaudeville will be played, a comedy, Pathe News, and musical features.
If you ever went to college, or you ever wanted to, you must see Buddy Rogers in "Varsity". It's here only three days.

HOOVER JOURNEYS SOUTH

THERE is every prospect that President-elect Hoover's trip to South America on which he is started, will be more than a post-campaign jaunt for rest and pleasure.

While it will provide him rest that will come in good stead when the affairs of state are shifted from President Coolidge's shoulders to his, it is very likely that observations made as he travels through the Latin-American republics will help shape his Pan-American policies.

While relations between the United States and Central and South America did not provide one of the chief issues of the recent campaign, the fact remains that these relations constitute an important executive problem which survives each administration to trouble the next. It is practical statesmanship and proof of the man's foresight and thoroughness for Mr. Hoover to visit the republics to the south before his inauguration. He should know their official representatives and they should know him.

The interests of the American continents are inseparably bound together by the Monroe Doctrine, economic and trade requirements, relations established by the Pan-American congresses and the position of the United States as banker to Central and South America. It should not be lost sight of that since the war the United States has taken the place of England and other European nations as financier to the Latin-American countries. It is American capital that is developing their natural resources and stabilizing their governments.

As secretary of commerce Mr. Hoover watched the growth of our investments in South America, and did much to improve our trade in that fertile field. He is, therefore, in a position to appreciate the need for mutual understanding.

GROWING INCOMES

THAN the Internal Revenue Bureau's analysis of income tax returns there is no more accurate and revealing barometer of national prosperity and the distribution of private wealth. The analysis for 1928 shows an amazing national prosperity and presages a still wider distribution of wealth in the future.

In 1927 the American people who made income tax returns had an aggregate net income of $22,637,317,907, a fabulous sum particularly in view of the fact that millions of persons make no return. And yet the aggregate net income for this year will exceed that figure.

From income tax returns can be read another fact that is most encouraging. They prove that American wealth is not divided among a few, but is widely distributed and annually finding even wider distribution.

Each year the nation's population of millionaires increases, but the taxable class grows even more rapidly and each year sees many incomes graduating from the lower brackets to the upper. These are the most reassuring features of this analysis. Progress is being made when the nation's income shows a steady growth.

A DOLLAR COURT

THE great increase in small claims, noticeable for several years, has led we read to the creation in Des Moines, Iowa, of a conciliation court of small claims. Before this court the litigants plead their own case without benefit of jury or lawyer. The only court record is the settlement agreement and the only court cost is a fee of $1.

During the court's first year it heard 2,800 claims, and it is now hearing more than half of the cases formerly tried in the municipal and county courts, with their cumbersome procedure of juries and lawyers.

This, perhaps, is a start toward simplification of legal proceedings, which have now become so involved and hampered by conflicting statutes that when one plunges into law suits he has commenced a journey most tortuous in its course and with an end far, far into the future.

It is doubtful, however, if the Des Moines experiment is the remedy for court congestion. Since it makes going to court easier and cheaper, it will encourage litigation, which is the very thing the nation desires least of all. If the figures were ascertainable, it probably would be found that fewer small claims are being settled out of court in Iowa.

An ideal justice is one granting a full and fair hearing to every claim no matter how trivial. Modern justice, obviously, must fall short of that ideal, although with the dollar court it approaches it.

Franz Schubert.

Stocks and Teaching.

Our Sam, As Ras Tefari.

Bath Tub Scotch.

By ARTHUR G. BRISBANE
(Copyright, 1928, by N. Y. American, Inc.)

One hundred years ago Franz Schubert died, greatest of all the world's song writers. Only thirty-one, he died as he had lived, very poor, leaving the world richer, forever, by the works of his genius.

His deepest admiration was for Beethoven, and his dying words were "Beethoven is not here." Let us hope that he and his beloved Beethoven, and others that encouraged and befriended him, were together Sunday where "their angels do always behold the face of my father," and heard his Symphony in C Major played by the New York Philharmonic, conducted by Mengelberg.

The radio could carry it everywhere on this planet. Why not as far as heaven, to which the ether surely extends.?

Upon Schubert's life, teachers and preachers might base useful sermons. His father, a parish school master, gave him music lessons, but at seven, young Franz had passed his father. Of his six hundred songs, he wrote some of the most beautiful in his 'teens, "Gretchen at the Spinning Wheel" at seventeen, "Erl Koenig" at eighteen.

Works of genius poured from him in a stream. Hearing one of his own songs, he said "that is not so bad." He forgot that he had written it.

Stopping at a tavern, on a walk, a friend recited some of Shakespeare's sonnets.

Schubert, on the tavern menu wrote his song, "Hark, Hark the Lark," and that evening wrote the music of "Who Is Sylvia?"

In his last year he wrote "Death and the Maiden," and until he died he continued pouring out works of genius, songs, operas, quartets, quintets, symphonies.

He made many friends, all worth while, in ability and character. When a new acquaintance was suggested, his question, always was "Kann er 'was?" "Can he do anything?"

Congratulations are due the men and women that arranged to honor his memory Sunday. From his grave he sends to the world beauty and inspiration.

Advocates of birth control may muse upon the fact that Schubert was the thirteenth in a family of fourteen children. Fortunately for the world, his strong mother, Elizabeth Fitz, did not think it necessary to stop at an even dozen.

Dropping a few million miles from Schubert to the level of the stock exchange, did you notice that in five and a half days last week, brokers sold more than thirty-one million shares, above five million shares a day?

Exchange authorities are getting ready for ten million share days, predicted in this column long since.

Little people, especially the foolish that gamble, should beware of that Wall street maelstrom with the dollar marks on it. But unfortunately advice is wasted.

The inexperienced, including many women, take "tips" from those more ignorant than themselves, and some will wish, when it's too late, that they had not listened.

However, while some lose and others win, the money remains, only changing hands, and some of it, at least, is used admirably. Last year, two billions of dollars were spent on the public schools. Every dollar of that is worth a thousand to the country's future. And the expenditure will steadily increase, as it should.

Prof. Shayer, of Columbia, reminds you that national prosperity expands, as public school funds increase. In 1910 this country spent only 500 millions on public schools, last year, 2,009 millions. "It hath not yet been shown what we shall be," and the public schools are the greatest progressive force.

At the coronation of Ras Tefari, "King of Kings," with the additional title of "Lion of Judah and Elect of God," the kingdom of Ethiopia, better known as Abyssinia, celebrated most completely. The whole population, including the army, marched to the festive board in squardons and platoons and feasted for seven days.

The king of kings was crowned by his aunt, behind a curtain, scene too sacred for common eyes.

And a little, buzzing squadron of fighting airplanes could wipe out all that Lion of Judah business in a few minutes.

But let us be humble since our Uncle Sam is only a Ras Tefari on a bigger scale. He and his populations have been feasting at the stock exchange for months, and it has been fine feasting.

A few squadrons of fighting planes could end all that. And, watching

Hints and Dints

Sun sets tonight 4:38. Sun rises rises tomorrow 6:54.

Some years ago in New York we use l to hear the actors joke about the Child's restaurants. They do not do it any more because the Child's restaurants are not jokes any more. It costs a lot to eat in 'em and actors are same as they always were.

We were much interested in peanut culture in Virginia after seeing the great field of them. We lost all interest in how peanuts are prepared for market after we ate an unroasted one we picked up in a store in Norfolk.

We often hear the word "moral" used. Of course you know what it means and have a dictionary to find out if you don't. For fear you don't we are going to give the definition of Mr. Webster, a fair authority on words, on it. "Pertaining to morality or morals! conformed to right! subject to, or influenced by the moral law: virtuous, practically sufficient: serving to teach a moral: inner meaning: moral philosophy or ethics: conduct to life: behavior." Now you can figure out when you are asked to give your moral support to anything.

If you wish to know what happened to him in 1919, whisper "subdivision" and watch him jump.

This item will give you an idea of what the Virginia farmer is up against. We bought a bushel of yams in that state. We paid a dollar for them. We bought them from a commission merchant who evidently made half a dollar or more on the deal. When those yams reached us on Edison avenue the American Railway Express had to be paid $2.05 for their part in the deal, making the yams cost us $3.05 a bushel. No doubt some will say "It serves you right!" We are giving the yams away.

THREE TIMES AND OUT

"Why is it that you do not attend church?" the chronic grouch was asked.

"Well, I've been to church twice. The first time they poured water on me, and the next time they tied me to a woman I've had to support ever since."

"Yes," replied the church worker, "and the next time you go they'll throw dirt on you."

Another word we hear quite a lot about is "bigot". We looked up Mr. Webster's book on words and we find the following: "One who is unreasonably and blindly attached to a particular creed, church or party: one who is intolerant of opinions which differ from his own: a fanatic: one illiberal, or hypocritically stubborn in creed." If you are any of those things watch your language.

In New York there are many shows. It takes $6.60 to get into them if there are any tickets to be had. There are some good ones. We know of three of them, Will Rogers, Show Boat and Animal Crackers. Of course there are many others also.

We notice that Ellwood City and Wampum are making plans to celebrate the opening of the new Wampum bridge. We wonder if New Castle can horn in on that event a little bit? No doubt the county commissioners will be there.

Easy Street has advantages, but the adjective doesn't always fit the recipient's conscience.

I care not who makes the country's reform laws if I can right its songs.

DIDN'T GET THE POLICY

A man who had been living a life that was, to put it mildly, a little irregular, wanted to have his life insured, and applied to a friend, an agent for a big company for a policy. The agent sent the company's doctor to examine the applicant and that was the last he heard of it for a time.

Meeting his friend on the street he said: "Say, George, how about that life insurance policy of mine? Don't I get it?"

"Well," said the agent, "you know in our company it is the custom for the doctor, after he examines a man, to take a chart of the human body, and he punches a hole in it wherever he finds anthing wrong."

"Oh, is that so, George. Did the doctor do that in my case?"

"He sure did, and he took the chart home and put it on his player piano, and it played 'Nearer, My God, to Thee!'"

Of course times are good. In ordinary times, none but very rich men can lose money on their farms.

We met Will Rogers in New York last week. We told him a friend of ours, an old cattleman from Oklahoma, was in the Rogers home the night Will was born. Will said he did not remember that. He did, however, remember being in New Castle to lecture and said he liked us. He wanted to razz some of the local celebrities when he lectured, but the committee in charge thought it best not to as it might offend some of the chaps who were in the audience on complimentary tickets.

P. O. department economy has about gone its limit until somebody invents a paper even more flimsy for stamps.

On the counters in the lobby of The News office there is a fine display of flowers. They are called the "Primula". We have heard them called Primrose also. These handsome specimens were presented to The News office by Elmer Walker, the well known florist and grower of fine flowers and plants. His fine plant is just beyond St. Mary's cemetery on the Harbor road, left hand side as you go out. He has the most wonderful chrysanthemums and other kinds of potted plants and cut flowers just now about ready for Thanksgiving. The folks around the office enjoy the beautiful blooms as do the many who come in during the day.

There are no rumble seats on the snappy roadsters and coupes in Japan. Instead, the illustrious and reverent Japanese, true to his custom of ancestor worship, has placed a seat on top of the radiator and called it the "mother-in-law" seat.

Every town has some citizens like some laws. They won't work, and nobody respects them, but they live on because nobody has the energy to kill them.

The World AND THE Mud Puddles

NOT EXACTLY ICONOCLASTIC.

The old vanishes and the new takes its place.

George Washington's old farm, near Fredericksburg, Virginia, is now electrified.

Fresh water for the cows is pumped by electricity. Dwellings, barns and other houses are illuminated by electricity. Electric ranges and refrigerators have been installed.

Electric current is used to assist in irrigating the crops. The fields can be lighted at night when overtime labor is necessary. Electric energy furnishes the power for sawing wood and lumber. Electricity is the mother of many orphan baby chicks produced in incubators.

New and old buildings are all wired and equipped up to the minute, just as the "Father of his Country" doubtless would have them if he were here today.

Washington, however had a small army of negro "hands" which in his day and generation took the place of Electric Energy.

What Might Have Been.

"And then I married him" she said.
And tied the towel round her head.
"So ended—life is very queer
My—shall I call it—dream career?"

So poor and tired and dull she seemed
I wondered what it was she'd dreamed.
What hope of thirty years ago
Marriage with him had trampled so.

"I had it in my mind" said she,
"That as an actress I should be
A great success and that my name
In brilliant bulbs of light should flame.

"Talent? I never really knew,
I listened, as so many do,
Unto the whisperings of a man,
And thus this humdrum life began."

The stage had never heard her name
Before with whisperings he came!
And yet, still glistening for her
Are bulbs of light which never were.

HAZARDS OF BEAUTY

A Chicago judge has ruled that women who want permanent waves must abide by the consequences, if any. In the case in point the burned beauty could not collect a dollar in damage. Nothing worth having is altogether cheap and there is no doubt that beauty is very much worth having. There are few hazards in the requirement of good looks, even when the subject gets a bad start. And doubtless any woman would spend vastly more time and endure much more torture for the glittering results.

"MOPOLOGY"

A training class for janitors and building engineers is proposed at the municipal University of Cincinnati. The janitor has great influence over the physical wellbeing of children in school. It has been said in a tone of complaint that the janitor gets more pay than the teacher. Perhaps he deserves more. That depends on the teacher and the janitor. At least he occupies a place of real importance, and a course in "mopology" is a sound idea.

SPY TYPEWRITING

Lieut. W. H. Brookley, at a Texas flying field, has invented a device for sky typewriting by means of flares at night. Tubes project from the bottom of the plane in such a pattern that any letter of the alphabet can be made by using the proper arrangement of tubes. Somebody will have to be very thoughtful before he can think up anything of such importance that he will be justified in typewriting it on the ceiling of the world. What would you say if you had a message to write on the sky?

CHASING LIFE

Surgeons have recently transplanted the lens of one man's eye on the diseased eye of another. The man who gave up the lens couldn't use it anyway, as his eye was too badly affected with another ailment. The marvels of surgery fascinate the mind. We seem to be moving toward the age in which there will be almost no physical task too great for medical science to undertake. But the life spark, the life principle, life itself—that eludes research. It is here and it is gone. Where does it go? Or does it go at all? The processes of life are studied and learned in the minutest degree. Life itself eludes.

Enthusiastic Approval Given Hoover's South American Trip

Many Observers See Evidence That The President-Elect Intends To Create His Own Policies In Pan-American Affairs

Rarely has any action in public life received such instant and general approval as has the announcement of President-elect Hoover's Good-Will trip to South America. Some observers see evidence that Mr. Hoover intends to ignore the past and establish his own policies in connection with foreign relations affected by the Monroe Doctrine.

"His prestige and his honest concern for future betterment of relations already good will add another stone to the structure of Pan-American confidence all enlightened Pan-American statesmen diligently are laboring to erect," states the NEW YORK SUN, while the ROANOKE WORLD-NEWS holds that "Mr. Hoover can render no larger service to the nation prior to his inauguration than by a Good-Will tour of the countries to the south of us, with which we should be on a much more friendly basis than we are at present."

"It is his purpose," thinks the ALBANY EVENING NEWS, "to know South America as he knows other continents, and South America will know him as Europe knows him. As president he will have a grasp of world affairs and international relations such as no other president has had."

"There is no service he can render the western hemisphere at this time," in the opinion of the FORT WORTH RECORD TELEGRAM, "so fraught with possibilities for the general good. It is something that has not been done before. It is something that any American president should experience, if he earnestly wishes to learn the meaning of the Monroe Doctrine."

"If he can contrive an arrangement and an understanding which will wipe out fear on their part and all reason for fear on our part, he will have built a doctrine which will carry the name of Hoover as far down the path of history as the name of Monroe has gone," according to the DAYTON DAILY NEWS, and the MORGANTOWN NEW DOMINION sees a demonstration "that he will not be governed by the dead hand of tradition or a servile compliance with past policies."

"He will have resources of his own to draw upon," avers the ROCK ISLAND ARGUS, and the DES MOINES TRIBUNE-CAPITAL says of the prospects: "There is a good deal of immediate evidence of Hoover's intention to take charge, to set the pace himself instead of having it set for him. That is likely to apply to more things than Pan-American relations and at least as much after inauguration as before."

"Mr. Hoover has always looked beyond money and has sought mutual advantage," declared the DETROIT NEWS, and the CLEVELAND NEWS similarly assumes that "instead of 'dollar diplomacy' or endless negotiations by means of endless provocative notes, we are to be treated to an era of straightforward diplomacy," while the ERIE DISPATCH-HERALD concludes that "his visit will be no mere gesture but a forerunner of those acts of practical friendship which speak louder than words."

"Perhaps the personal touch is what has been lacking," suggests the NEW ORLEANS MORNING TRIBUNE, with a review of the past, and the HARTFORD TIMES states: "The South Americans will feel that they know him when he takes office. Through him they will feel better acquainted with the United States." Similar views are expressed by the PHILADELPHIA EVENING BULLETIN, ST. LOUIS TIMES, PITTSBURGH POST-GAZETTE and FORT WAYNE NEWS-SENTINEL. The SAN FRANCISCO CHRONICLE says: "Central America and South America may be sure that he will understand. Every nation Mr. Hoover has dealt with, and there have been quite a few, has learned this about him."

"No American president or vice president has ever visited a country of South America. So the proposed call, which will be to all intents and purposes that of a president of the United States, is epochal," in the judgment of the ST. LOUIS GLOBE-DEMOCRAT, and the SCHENECTADY GAZETTE observes: "The next president has shown that he is going to tackle foreign affairs in a capable, understanding manner. We shall hope that he will deal with domestic problems in the same way."

"Sensible diplomacy in Washington and an abandonment of top-loftiness will help every manufacturer in the United States who has goods to sell that South America can advantageously buy," asserts the RICHMOND NEWS-LEADER. The MANCHESTER UNION makes the prediction: "He will be a working president. And the South American pilgrimage is planned to enable him to do his work the more wisely and effectively."

"Mr. Hover's sympathies are so broad and so well known," according to the KANSAS CITY JOURNAL-POST, "that little rhetoric would be required in voicing them. His appeal would not be to the political and the legal classes but to the commercial element of the countries. The possibilities of lasting benefits are manifold." That paper also holds that "the unprecedented trip, following so closely on the heels of the election in Nicaragua, would tend to allay suspicions that some of the mercurial international lawyers of South America have been so active in voicing."

The conclusion of the CHICAGO DAILY NEWS as to the effect of the trip is that "in these days of expanding international relations, it should be measurably to increase the efficiency of the American government in dealing with foreign affairs."

Perjury Trial Near Conclusion

Senate Probing Committee Member's Absence May Cost Verdict

SETS PRECEDENT FOR OTHER HEARINGS

By GEORGE E. DURNO
International News Service Staff Correspondent

WASHINGTON, Nov. 20.—The perjury trial of Col. Robert W. Stewart, Standard Oil magnate, probably will come to an end today, and that end probably will be a verdict of "not guilty."

Charged with having sworn falsely to the Senate Public Lands committee about his possession of $759,500 of the profits of the Continental Trading company, a fly-by-night concern that figured in the oil scandals, Stewart won a tremendous victory in the closing minutes of his defense when Justice Jennings Bailey, presiding indicated he would instruct the jury it was up to them to determine whether a majority of the total membership of the committee was physically present when the alleged perjury occurred.

Although the minutes of the hearings record eight of the fifteen senators present on each of the occasions, the government admits that several of them were "present by assent" only. Bailey ruled that to make the committee a competent tribunal a physical majority must be in attendance.

Both sides have rested their cases and only final argument remained. U. S Attorney Leo Rover making the principal appeal for a conviction, and Frank J. Hogan, chief defense counsel, demanding a verdict of not guilty.

Bailey's ruling probably will have a considerable effect on the future functioning of committees of congress. Almost never are their actual quorums present and the custom has grown up of permitting members to phone in to the committee clerk and registering as "present." The court's ruling will void this practice in important cases.

PROPOSED BOND ISSUE DORMANT

If Special Election Is To Be Held Legislation Must Be Prepared

It is anticipated that city council in the near future again will raise the question as to whether or not a bond issue of one million dollars is to be put before the voters at a special election.

Not so long ago an ordinance providing for such an issue was introduced but it was never passed. While it reposed in committee an error was discovered in the bill.

Previous various representatives of civic movements, county commissioners and councilmen met at a local hotel where the city's needs were discussed.

One of the important subjects before the body, which met informally, was the sewer situation. Other subjects were recreation facilities.

It was deemed, it is said, necessary to acquaint the people with the sewer situation and finally it was suggested that a special election be held.

During the past two weeks the proposed issuance of a million dollars in bonds by the city has not been discussed and if a special election should be held necessary legislation is vital.

During election time the ballot was crowded with amendments and even though a special election would cost probably $2,000, it is said the pulse of the people could be learned definitely.

We are working for you—if you are a member of our institution.

And you are working for us.

There are no inside stockholders here. You get ALL the earnings from the funds that are invested here. You get all that we can safely credit to your account after we have held aside a small margin for safety.

That safety fund is yours also. It protects your money and protection for principal is just as important as cash dividends.

The point is: you get all that any other member gets under like conditions. If we have a particularly good year, YOU get the benefit. It doesn't go to any inside ring since we are not operating for the profit of any select group of original stockholders.

Those who manage our institution get a fair but not exceptional stipend for their time and service. Everything else belongs to all of us TOGETHER.

That's a very real interpretation of "working for you."

As we grow, together, we produce a greater service—greater earnings—greater safety—FOR ALL.

That's a program that any one can indorse.

the ticker, we have not brains enough to realize it.

"Our best families" in New York, have been drinking "Bathtub Scotch,' without knowing it.

High-grade bootleggers, fancy customers, "only satisfied with goods just off the ship," have bought and drunk millions of dollars' worth of horrible stuff, made of denatured alcohol, redistilled, mixed, in ordinary bathtubs, with malt and water. The malt giving that good old Scotch, smoky taste.

J. J. Donovan, chief of the conspiracy section, in one branch of the prohibition administration, says this stuff was sold at fancy prices. It also had a fancy effect on the lining of the best families that drank it.

The Baltimore and Ohio, progressive railroad, orders clocks run by radio. Not necessary to make any allowance for distance in such clocks. The electric impulse moving the hour or second hand, goes 186,000 miles a second. The difference between the Pacific and the Atlantic would be only the thirty-second part of a second. Not enough to make you miss your Baltimore and Ohio flier.

American's cotton-growing regions will be interested, mildly, in a new "cheaper" cotton, developed in England.

A small bird, weaving her nest in British Guinea, supplied the idea, using fibre from a plant that now thrives in England and already yields three or four million pounds a year.

The new cotton costs only 12 cents a pound, the plant grows seven feet high, and is "stripped." It is not a blossom cotton.

Only the coarsest grades of cotton can be made from it, however, and experience teaches that substitutes are more numerous than successful.

Henry Ford's plan to produce cheap linen by treating hemp in a modern machine-shop manner, seems more promising.

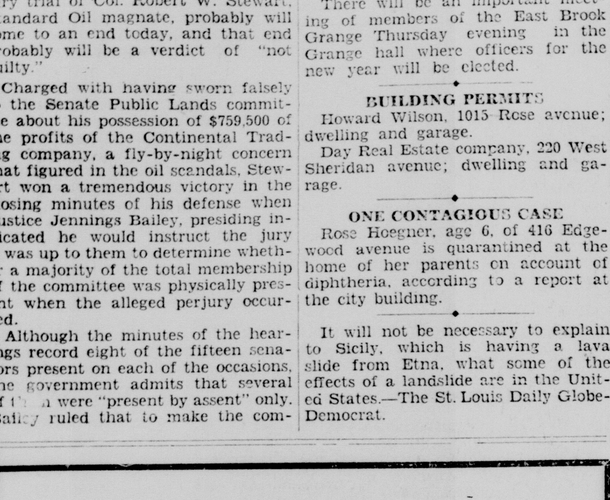
Ground Gripper Week

NOV. 19th to 26th

Drop in and let us explain the Ground Gripper features to be found in no other shoe.

"What makes you so tired, Mother?"

Nerve strain and fatigue are relieved by these properly designed shoes that prevent and correct foot troubles



ARE you tired, worn-out at the end of the day? Too tired for the theatre, for dancing, for anything except restless slumber? Perhaps improperly shaped shoes are causing the trouble. Foot-ailments do injure your entire system. They cause headache, nerve-strain, fatigue and other ailments even worse.

And foot-troubles usually are as unnecessary as they are undesirable. It isn't bad feet—it's bad shoes. Shoes that pinch or burn. Shoes that throw your weight forward on your instep. Shoes that bring on fallen arches and flat feet.

You can find in Ground Grippers the same relief from foot troubles that thousands of other men and women have found. These shoes are orthopedically correct. They are scientifically designed to help your feet. They prevent and correct foot ills caused by ordinary, faulty shoes.

* * *

Only Ground Grippers combine the following vital principles of the correctly built shoe:

1. The Flexible Arch, which allows the foot muscles to exercise and thus strengthen themselves with every step. This flexibility makes the shoe close-fitting and comfortable, easing the foot while assisting the arch to absorb the shocks of walking.

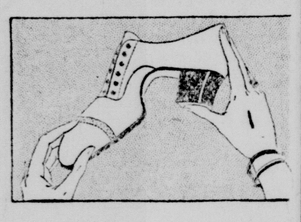
2. The Straight Inner Line, permitting the toes to function with a free, strong, gripping action.

3. The Patented Rotor Heel, which helps you toe straight ahead, the normal, natural way.

Back of every pair of Ground Grippers are twenty-five years of promises fulfilled. Back of every Ground Gripper claim are the testimonials of thousands of satisfied wearers.

Try Ground Grippers today. Notice how they ease your feet. How foot troubles dwindle and vanish.

At the nearest Ground Gripper store is a man who will understand your feet and your shoe problems. Give him the chance to help you.



The Ground Gripper Flexible Arch allows foot muscles to exercise, strengthening themselves with every step.

Local U. P. Churches Will Be Represented At Session

Members of the Young People's Christian Union of Beaver Valley will hold a workers' conference at the College Hill U. P. church on Friday evening, November 23, at 7:45 o'clock.

The program will consist of discussions of various phases of society work. Separate conferences will be held wherein each person will be able to gain.

G. A. P. Bowman, secretary of young people's work in the United Presbyterian churches of Beaver Valley will speak, and his associate, Miss Myrtle Patterson, will handle the program.

Every young people's society in Beaver valley is urged to have every officer and committee chairman present at this conference, in order that much knowledge may be gained which can be used in building up Y. P. C. U. societies during the coming year.

Over 100 Drivers Licenses Revoked

Forty-Three Have Licenses Taken Away On Intoxication Charges

(International News Service)

HARRISBURG, Nov. 20.—Revocation of 112 automobile drivers' licenses was announced today by the Department of Highways. There were no blacklistings.

Forty-three revocations were on charges of intoxication, 10 for transporting liquor and 16 for reckless driving.

The revocations for intoxication included John Traskowski, New Brighton; Walker Wills, Beaver Falls; George W. Kline, Clearfield; T. H. Tweedie, Stroudsburg; Viola Leonard, Uniontown, and Mrs. Bertha Todd, Easton.

The license of S. R. Thompson, Huntingdon, was revoked on a three-fold charge—intoxication, transporting liquor and operating during a period of suspension.

Revocations for operating during the period of suspension were Tony Pavone, Sharon, and Samuel Hovington, West Chester.

Licenses revoked on a charge of transporting liquor included Mike Voskakes, Ambridge, and Emil Hays, Beaver Falls.

Those who lost licenses on charges of reckless driving included James Darnell, Lancaster, and Clayton E. Palmer, Punxsutawney.

Mysterious Fire Burns Big Barn

GREENVILLE, Pa., Nov. 30. — A costly barn, two miles east of here on the farm of Bruce Reagle, was burned to the ground when a blaze of undetermined origin was discovered. Cattle had been removed from the barn only a half hour before, thus saving several thousand dollars worth of stock. Only hay and grain and a large silo were destroyed.

The Greenville fire department answered a call and aided in saving other buildings and the residence of the farmer, after a stubborn battle. A high wind aggravated the flames.

Rep. Oldfield Of Arkansas Is Dead

(International News Service)

WASHINGTON, Nov. 20.—Rep. William A. Oldfield (D) of Arkansas died at Emergency hospital Monday following an operation for gallstones.

He was 54 years old and after nearly 20 years service in the House he had become the Democratic whip and chairman of the Democratic congressional campaign committee.

It seems strange now to hear our pastor talk about nothing but religion.

IS YOUR CITY ONE OF THE 628?

THE CHAMBER OF COMMERCE of the United States sponsors a most effective and well organized activity in the prevention and control of fire. This is known as the National Fire Waste Council.

Six hundred and twenty-eight cities are engaged in a nation-wide contest in the reduction of fire waste. Through the National Fire Waste Council the combined experience, advice and assistance of architects, credit men, boy scouts, educators, engineers, insurance men and many other groups are made available to any community.

This work involves modern and scientific fire fighting apparatus and methods, salvage work, regular inspections, arson investigations, modernized building codes and ordinances, and actuarial facts.

The Stock Fire Insurance companies, through the National Board of Fire Underwriters and other organizations, contribute freely to this constructive work in the public interest.

A still larger cooperation with this service on the part of municipalities and property owners will result in safeguarding life and property in an ever increasing degree.

This is the seventh of a series of talks to the people of this and other states pertaining to the business of fire underwriting as conducted by the 229 Stock Fire Insurance companies. Further information on this and other insurance subjects will be gladly furnished by

PETER'S ADVENTURES in ANIMAL LAND

BY MRS. FLORENCE SMITH VINCENT

DOVE OFFERS HIMSELF AS AN AEROPLANE.

"Are you going to move to another dove-cote asked Peter with much interest. "Perhaps if you choose one not far away I can come and visit you."

"Now isn't that too bad" declared Dove. "Here we have lived in the white house all this time and you have not been near us once and Dolly would have been so glad to see you. No, we're not going to live in another Dove-Cote. We are going far away from here. Just how far I have no idea, but 'tis a good long fly and I am always well content to roost for a while when I reach there.

"The only trouble is that to every branch on the trees in the woods where we alight at our journey's end there are about a hundred birds and sometimes the branch becomes so loaded that it breaks and falls to the ground and then some of the doves are sure to be hurt.

"It is a wonderful sight. I wouldn't miss it for anything.

"Can you imagine thousands and thousands of doves, little doves, big doves, fat doves and lean doves, flying high in the air lines that sometimes are straight and sometimes wind like the bend of a river?"

"No I am afraid I can't" said the boy, "but I wish I could. If only I had wings I could go along with you."

Dove cocked his head on one side and looked thoughtfully up at the sky. Then suddenly he spoke.

"Say I have a fine idea boy" said he. The children are old enough to look out for themselves now and Dolly—you never knew such an independent bird as that wife of mine. She declares that just because she is a ladybird is no reason why her wings are not as strong nor her eye as clear as mine and she will not let me guide her a bit on the fly. Instead once we have started she seems to forget all about me.

"I might just as well have stayed behind for all she cares. And I don't like it I like to have some one to talk to. Suppose you ride to the woods with me. My feaders are thick and they'll keep you warm. And there will be plenty of passengers coming this way to bring you home when you are ready to come."

"SAY I HAVE A FINE IDEA BOY"

Peter gave a little gasp and opened his mouth as though to speak and then suddenly closed it without saying a word.

"What is the matter boy?" anxiously asked Dove. "Don't you like the idea? For a minute you looked real pleased but now you seem sad! If you are afraid I can't carry you don't let that worry you. I am a little too fat this summer—I have eaten too much I guess—but for all of that my wings are just as good as ever they were. I will be as careful as careful can be.

"Why you ought to know that I would not let anything happen to you for the world."

Stubborn Cough Quickly Ended by Famous Recipe

Here is the famous old recipe which millions of housewives have found to be the most dependable means of breaking up a stubborn, lingering cough. It takes but a moment to prepare and costs little, but it gives real relief even for those dreaded coughs that usually follow the "flu."

From any druggist, get 2½ ounces of Pinex, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup or strained honey. Thus you make a full pint of better remedy than you could buy ready-made for three times the cost. It never spoils and tastes so good that even children like it.

Not only does this simple mixture soothe and heal the inflamed throat membranes with surprising ease, but also it is absorbed into the blood, and acts directly upon the bronchial tubes, thus aiding the whole system in throwing off the cough. It loosens the germ-laden phlegm and eases chest soreness in a way that is really astonishing.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palatable form. Nothing known in medicine is more helpful in cases of distressing coughs, chest colds, and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

Coal Transformed Into Oil May Revolutionize World-Wide Industry

Scientists From All Parts Of World In Pittsburgh Hear New Suggestions

Process Of Hydrogenation May Save Future Of Mining Industry

(International News Service)

PITTSBURGH, Nov. 20—The transformation of bituminous coal into oil by the process of hydragenation will ultimately save the great world-wide coal industry from succumbing to the inroads on its markets made by natural oil and gas. Dr. F. Zur Nedden, famous German scientist told more than 2,000 technicians from 20 nations attending the second international conference on bituminous coal here today.

"The percentage of coal transformed into oil by hydrogenation heralds the advent of a new ally to coal, hydrogen, which bids fair to protect old King Coal from being subdued by his mighty rival, oil," Dr. Zur Nedden said.

Especially in Europe, where there is not the abundance of natural resources found in America, has the necessity for "improving" coal both chemically and mechanically grown paramount, the scientist said.

He said that the leaders of European science have perfected methods of adding to coal artificially that which it lacks in hydrogen in order to become a mixture of pure hydrocarbons, such as alcohol, gasoline or gas. "Also all processes of 'improving' coal, either mechanically by cleaning blending, pulverizing or briquetting, or chemically by carbonizing or hydrogenating, or by transforming it cheaply into electricity—all these processes of 'coal improvement have thrived in Europe because of the necessity for supplying a substitute for natural gas, and of supplementing the natural oil supplies and water power."

Development Seen

He pointed out that while fifteen years ago 52 per cent of all coal mined in Germany went to the consumer in its raw state, this year the percentage was only 42 per cent.

Dr. F. P. Kerschbaum, of Frankfort, Germany, sees industrial development on a large scale in the future based on lignite corbonization of coal.

"Modern developments in lignite and brown-coal carbonization in Europe, especially in Germany, indicate that such carbonized coal is going to be a complement or even a competitor to bituminous coal in different parts of the world and may lead to the building up of new regions and branches of industry," he said. Lignite, sub-bituminous or "brown" coal, a variety of fuel between peat and bituminous, comprises three-sevenths of the world's available fossil fuel resources, according to Dr. Kerschbaum.

Of the available supply of sub-bituminous, the scientist declared, America possesses 94 per cent. For this reason, Europe has far outstripped this nation in carbonization and treatment of raw coal, he said, being forced to resort to these means to conserve all available natural resources.

Today's sessions also included the reading of papers by Dr. Friedrich Bergius, of Heidelberg; Dr. Cecil H. Lander, director of fuel research, London; Dr. Chozo Iwasaki, of Japan; Dr. George L. Stadnikoff, Moscow; Dr. Ing. Fran Podbreznik, Belgrade; T. Ban, Tokio, and discussions by other famed scientists. The sessions close Saturday.

'Hard Winter,' Says York Seer; 'Mild And Open,' Another's View

YORK, Nov. 20.—J. W. Neff, a well-known weather prophet of Relay, this county, predicts a "pretty hard winter." He has been forecasting weather for 55 years. He bases his prediction for the coming winter on the fact that while the hail in this section last spring stripped the trees of fruit, the supply of hickory nuts and acorns is plentiful this fall. He also predicts "lots of southeast winds during the winter." This prediction is based on St. Michaelmas Day.

Other well-known weather prophets of York county are James Koller of Glen Rock, Detective T. S. Stroman of York, William L. Bollinger of Wiota and George Rinehart of this city. The latter has the caterpillars for his guide and predicts a comparatively mild and open winter. The other prophets have not yet swung into action.

However, it is expected there soon will be as much controversy among them as there was last year, each claiming to have guessed the most correctly, several of them even to the exact number of snows.

Westfield Will Have Farm Show

Westfield Grange Will Sponsor Farm Produce Show In December

Announce Chairman And Various Department Heads For Products Day

Plans were made Monday evening at the meeting which took place at the Westfield grange hall near Mount Jackson for a general farm produce show which will be held approximately the third week in December. The show will be sponsored by the grange but will be open to anyone who wishes to display products.

This will be the second annual produce show to take place at the Westfield grange. The first show which occurred last year met with a success which warranted the staging of another such display.

H. R. McCulloch, county agent, states that the grange wishes it known that it is not a grange show but that it will be open to the public and any one, whether a member of a grange or not, can display their farm products at the show.

At the meeting Friday evening, H. L. McCurley was named general chairman for the affair. Other members of the general committee in charge of all arrangements being W. S. Fullerton and H. E. Emery.

Superintendents of other departments who will direct their own committees follow:

J. A. Dawson, poultry; S. B. Hayes, grain and vegetables; Jay Fullerton, fruit, eggs and poultry; Mrs. Charles McClain, baked goods; and Mrs. Willis Gwin, fancywork.

The exact date for the show will be set following the arrangement of a speaking program. It will be a one day affair.

Gives His Blood

Sixty persons, walking the streets of Paris, owe their lives to the courage of M. Raymond Briez, because he submitted to blood transfusions to save them. Two hundred and sixty-four times he has undergone the surgeon's knife and nearly 20 gallons of his blood has been given to save the lives of others.

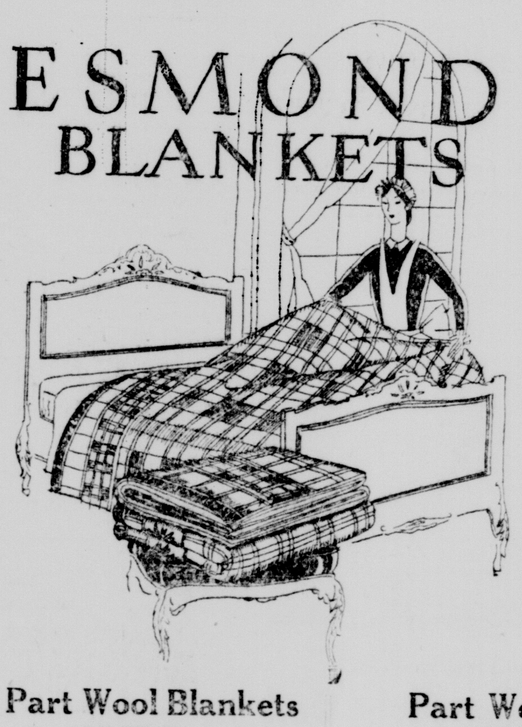
ESMOND BLANKETS



For Beauty and Style Esmond Is the Answer
There are designs and colorings never before attempted in blankets.
The modern ideal in bedroom decoration has swept away the old-fashioned belief that blankets were merely "something to keep warm with." Today women are giving their preference to blankets that decorate too—blankets that are appropriate to the ensemble of the bedroom.
It is for just this quality of harmonious beauty that Esmond Blankets have been so widely praised.
Esmond Blankets $3.59 to $14.95

Baby Blankets

Take Care Of That Cold! Urges State Health Head

At this season of the year bodily resistance is frequently called upon to do a man's size job—and often fails. The reason for this failure lies not with the essential equipment but with the condition in which it finds itself", said Dr. Theodore B. Appel, state secretary of health, today.

"The rigors of the cold season demand a much greater amount of physical adaptability than is necessary during more temperate months. If the average man and woman would realize this fact and undertake intelligently to prepare their bodies for winter's onslaugh, much of the illness and many of the deaths that unnecessarily occur in winter time could be eliminated.

"For example, a cold is often the forerunner of pneumonia—a winter peril. And colds are often caused by sitting in a draught when in an overheated condition, by getting wet feet and not changing foot gear, by living in superheated rooms, by wearing too much or too little clothing, and by carelessness in contacts with those who are suffering from them.

"A sensible attitude toward this one matter alone would definitely decrease a great number of serious illnesses, eliminate many deaths and wipe off the calendar hundreds of thousands of 'sick' days for Pennsylvania's population.

"On the other hand a negative attitude is not sufficient. Don'ts are all right in their place and quite necessary, but do's are equally important.

"One hears much concerning the condition of football players. Essential as it is for the gridiron star to attain a high physical state, it certainly is a great deal more necessary that the average person gives much positive attention towards his psysical welfare in order successfully to play winter's game of life.

"Therefore, eight hours sleep each night, plenty of daily exercise in the fresh air, a minimum of enervating pleasures, a maximum of healthy recreation, and a well balanced diet, are some of the best rules to observe in the development of physical resistance to disease.

"To a well-conditioned man winter is a great friend, but to a 'half-aliver' it can be quite the opposite. In short, in order to stay alive, keep alive. And to accomplish this, one must intelligently plan and work. A worth while job, indeed!"

Observe Birthday Of Archduke Otto

Eldest Son Of Last Ruling King Of Hungary Becomes Of Age Today, Is 16

(International News Service)

BUDAPEST, Hungary, Nov. 20.—Monarchists all over Hungary today observed the 16th birthday of Archduke Otto, the eldest son of Karl, last king of Hungary and emporor of Austria. Otto came of age today (according to the family law of the house of Hapsburg), and should be the crowned king of Hungary, according to adherents of the "ancient regime" in this country.

Count Joseph Hunyadi, lord steward of the late king, and leader of the "legitimists", ordered for this occasion a gorgeous "coronation" uniform for the 16-year-old boy pretender.

"Legitimist" demonstrations and special church services were held throughout the nation. Leaders of the "legitimist" organizations are energetically demanding restoration.

Premier Count Bethlen started a counter offensive by declaring that Hungarians were free to select a new king irrespective of the ties of the former ruling Hapsburg family.

Smith's Cleaners Feature Formprest

It is interesting to note that hundreds of men in New Castle and vicinity have gotten away from the common word "pressed" which in years gone by means just common flat pressing. They have turned their attention to "Formpressing", which is the most modern method in existence with so many features over the old method of flat pressing.

The "Formprest" equipment which includes a battery of special presses has been in use for many months by Smith's, the Master Cleaners of New Castle, this company having it exclusively in this territory. It might further be stated that Smith's was the second plant in the United States to install this latest device at the expense of thousands of dollars.

To give the public an idea of this modern method known as "Formprest", garments received in this department are first re-shaped. This new process features a press for every part of a garment, whether it be sleeves, shoulders, lapels, backs, or what not. Each machine has a specific purpose in restoring your old clothes to their original shape and due to the efficiency of the outfit, garments "Formprest" will give greater service and will retain their shape much longer than by any other method.

Smith's, the Master Cleaners of New Castle invite you to visit their plant at any time to inspect this department and note the many advantages of "Formprest".

Rothstein Gems May Have Been Smuggled, Claim

Now Believe Arnold Rothstein Connected With Ring Of Diamond Smugglers

SAFETY DEPOSIT BOX IS VALUABLE

By DAVID P. SENTNER
International News Service Staff Correspondent

NEW YORK, Nov. 20.—The possibility that the murdered Arnold Rothstein, mysterious figure in the underworld, may have been connected with the $50,000,000 international diamond smuggling ring, was being investigated today by federal authorities.

Government agents already have been investigating Rothstein's possible connection with a drug smuggling trust. They claim that documents found in Rothstein's safety deposit box have furnished important leads.

"We have two important leads," said Assistant U. S. Attorney Blake. "That is all I can say at the present time."

"Fences" for smuggled and stolen jewels were associates of the slain gambler, police said. Gems found in the Rothstein banking box were being traced by officials today.

Four Arrests Made

With four arrests made in connection with the diamond smuggling plot, federal authorities expected to take into custody today another jeweler. Further arrests abroad also are expected.

Those already charged with implication in the most gigantic jewel running conspiracy in a decade are:

William Ballyn, "singing steward" of the Berengaria.

Frances Landau, attractive 20-year-old daughter of a well-known Maiden Lane jeweler.

Morris Landau, gem importer, father of Frances.

Traffic Policeman John T. McIntyre ("handsome Jack"), guardian of the Cunard line piers and favorite of society tourists.

Pennsylvania First In Manufacture Of Nation's Fire Brick

Keystone State Boasts Of 63 Fire Brick Manufacturing Plants

By ARTHUR C. WIMER
Special Washington News Correspondent

WASHINGTON, D. C., Nov. 20.—Pennsylvania ranks first in the country in the manufacture of face brick, according to the results of a biennial survey made public today by the United States department of commerce. The Keystone state boasts 63 establishments engaged primarily in the production of face brick, while its nearest competitor, Ohio, possesses only 45.

The production of face brick last year fell off below the production of 1926 and 1925, the commerce department states. The value of face bricks manufactured in 1927 was $41,504,486 as compared with $44,516,236 in 1926 and $45,427,625 in 1925. The total for last year represents a decrease of 6.3 per cent. as compared with that for 1926 and 8.6 per cent. as compared with that of 1925.

During 1927, 15,312 workers were engaged in the industry in the 253 establishments of the country and wages totaling $18,315,379 were paid.

"Hoover Bull Market" Sends Prices Upward, Values Are Increased

Never Before In History Of Markets Have Such Profits Been Made Blindly

NEW YORK, Nov. 20.—The market values of the common stocks of 16 American industrial companies increased $985,307,231 in the first two weeks of the "Hoover bull market". This is shown in a check made today by International News Service.

Sky-rocketing stock prices are no novelty to Wall Street and the speculative leaders who have for the past two years engineered the most gigantic bull movement in the history of the stock markets. But the breadth and velocity of the November markets, combined with the almost total disregard for the laws of gravitation, have astounded the Hard-headed plodder in Wall Street; created a brand new crop of money-makers in the stock market—and sent terror to the hearts of the professional bears, who have never been able to see very far beyond the rims of their own spectacles.

Values Recorded

Here is the record of swollen values of industrial common stocks in the period under review:

Stock	Price Nov. 5	Price Nov. 19	Shares Outstanding	Increase In Market Value

Grand total of stock increases				$985,307,231

This has been the only movement of note in which General Motors has not been up with the leaders. Announcement of the melon-cutting for General Motors corporation took the wind out of the sails of its forward move.

Enormous Profits

Radio's amazing jump of 103 points has been the sensation of the market; the stock having advanced 250 points from the low of the year. Radio, with only about 1,100,000 shares of stock outstanding, most of it in the strong boxes of the big corporations and professional stock traders, is practically cornered.

Never before in the history of markets have such profits been made by following blind destiny instead of economic facts. Never before have the most elementary and fundamental rules of finance and investment principles been ignored so completely and never before have strong and powerful bull leaders held so tenaciously to their position.

For a seat on the stock exchange $495,000 was paid this week and for a curb exchange membership $160,000. Membership is of no value unless it is made so by the man who holds it and the natural conclusion is that those who buy the seats expect to make them profitable.

The market will continue to soar until it receives a jolt in the form of some unexpected unfavorable event. It may be an earthquake; it may be a sudden "coming to their senses" of those who are deliriously frenzied over their expected winnings in the biggest stock market on record.

Hoover To Fish In Deep Seas For Some 700 Pounders

Will Leave Battleship In Small Launch On Wednesday

(International News Service)

ABOARD U. S. S. MARYLAND, (Via radio to San Diego, Calif.) Nov. 20.—Cruising leisurely in balmy weather and smooth seas 100 miles off the coast of lower California, President-Elect Herbert Hoover today made his first plans for deep sea fishing in a region he himself described as "the finest angling in the world".

The Maryland will halt tomorrow while the President-elect takes off in a launch. He said he had long hoped for a chance in these waters where 700-pounders, landed in the past, have lifted the lucky anglers into the aristocracy of fishermen.

The President-elect was up early for a brisk deck stroll beneath the warm tropical sun before a conference with Henry P. Fletcher, American ambassador to Italy, and an authority upon Latin-American matters. It is expected that the final itinerary will be announced tomorrow.

There are six days of open sea travel ahead before the Hoover party reaches Corinto.

State's Coal Stock Is Becoming Small

(Special To The News)

WASHINGTON, D. C., Nov. 20.—Pennsylvania manufacturers and public utility companies apparently are worrying about their coal supplies for, according to the United States bureau of mines, stocks of bituminous coal on hand on October 1 were sufficient to last less than a month.

Consumption of bituminous coal in Pennsylvania industrial plants in August and September decreased more than six per cent under the same months last year, the report shows.

FARM BLOC TO INITIATE LIBERAL PARTY MOVEMENT

With all members of the Progressive bloc in the senate emerging from the elections undefeated, and with others of Progressive tendencies retaining office, Progressive leaders have been planning a program to initiate a liberal party movement through the reorganization of the Democratic party. Senator Henrik Shipstead, Farmer-Laborite from Minnesota, will have a key position in the new organization, it is said, by virtue of his strength in his own state, where he piled up a majority of 300,000 while the state was voting for Hoover. Senator Norris, however, remains the leader of the group. A conference of Progressives before the convening of congress is being planned.

Survey Committee Is Appointed For Visitation Campaign

City To Be Divided Into Four Districts With a Director Over Each District

Rev. S. B. Copeland, chairman of the survey committee for the visitation evangelism campaign which will be conducted in this city beginning on December 30, has appointed a committee of four to be in charge of the survey.

Those named are Rev. Jesse B. Porter, Rev. A. M. Stump, Rev. D. C. Schnebly, Dr. S. L. Maxwell and Rev. A. C. Bell. The city will be divided into four districts with a member of the committee over each district with headquarters at some church in that district.

In the seventh ward district the headquarters will be held in the Mahoning M. E. church with Rev. D. C. Schnebly in charge. North Hill and West Side headquarters will be in the First Baptist church, corner of East and North streets, with Rev. A. M. Stump in charge. East and south side headquarters will be in the Third U. P. church, East Washington and Adams streets, J. B. Porter in charge. Croton and part of east side district in the Second U. P. church, Milton and County Line streets. Dr. S. L. Maxwell will be in charge. Rev. A. C. Bell will be in charge of the colored district.

Each minister will be given an allotted number of names of the workers from his church for the week of the survey beginning December 17 and closing December 21. Every street of the city will be surveyed, the workers working from 9 to 5 each day.

Dr. Kernahan of Boston, who is in charge of the campaign, will appoint a survey director and an assistant who will have complete charge of the survey.

Local Man Had Aches And Pains For Over Year

Ten Herbs Made Wonderful Change, He Says; Benefited Stomach, Nerves And Liver.

"Ten Herbs has made a wonderful change in me," was the recent statement of Mr. William W. Brest, 208 North Jefferson street, New Castle, to

MR. WILLIAM W. BREST

the Ten Herbs Man, who is at Eckerd's of New Castle, Inc., 30 East Washington street, this city, where he is daily demonstrating this famous new herbal medicine to crowds of men and women of all ages and stations in life.

"For more than a year I had aches and pains in every limb," Mr. Brest continued. "My stomach was badly disordered. Food did not digest as it should. My appetite failed me and what little I ate caused severe pains. I seemed to fill with gas and was constantly retching. My nerves were in very bad condition and I often wanted to be alone. I was so restless that I could not sleep properly. My system seemed to be full of bile, causing my head to ache and my complexion to be sallow. There were severe pains in my back and loins, and I had to arise several times at night.

"I read about Ten Herbs in the paper, and as I knew how it had benefited some of my neighbors, I started using your medicine. Now my stomach is working the way Nature intended. I have a good appetite, and can appreciate a good meal, as there are no bad after effects, such as indigestion, gas, or retching. My liver seems to be in splendid condition, and as a result headaches have disappeared and my complexion has greatly improved. My skin has the glow of health. Nervousness has been relieved. My kidneys show a marked improvement and the pains are gone from my limbs. I sleep soundly at night and feel refreshed in the morning. Ten Herbs deserves a strong endorsement from me."

The wonderful natural ingredients of Ten Herbs cleanse, strengthen and vitalize the whole system. At the same time they benefit the stomach, liver, kidneys and bowels, so that before long persons who give this medicine a fair trial usually are feeling better in every way. Ten Herbs has helped thousands throughout this section and why not you?

The Ten Herbs Man is at Eckerd's of New Castle, Inc., 30 East Washington street, this city, where he is daily meeting the public and explaining the merits of this medicine.

No Messages Sent Out From Vestris Sunday, Radio Man Declares

(International News Service)

NEW YORK, Nov. 20.—Arthur J. Costigan of the Radio Marine Corporation, a subsidiary of the Radio Corporation of America, was recalled to the witness stand Monday when the government inquiry into the Vestris disaster, which cost 100 lives, was resumed. He was asked by U. S. Attorney Charles H. Tuttle if he had a file of the radio messages sent from the Vestris. He replied in the affirmative.

"Do the records show that any messages were sent out from the Vestris on Sunday, the day before the disaster?" Tuttle asked.

"No messages were sent by the ship on Sunday except the weather reports, as far as our records show," Costigan replied.

While the federal authorities were pushing their inquiry to the limit, Senator Robert Wagner announced that he was preparing a resolution to be introduced in the Senate calling for an investigation of the Vestris disaster and a thorough overhauling of the maritime laws. He said the resolution will be presented next month.

New Regulations

"I am not prejudging the Vestris case," he said, "but it behooves us to do everything we can to prevent a repetition of the disaster. I believe the U. S. Senate is in the best position to bring about new maritime regulations because of the international aspect involved."

This weather message was produced. Costigan could not read it because it was in code, and H. G. Welland, third officer of the Vestris, was sworn in. Welland decoded the message. It said:

"Sunday noon. Moderate gale. Wind northwest."

Sitting on the bench with Commissioner Francis O'Neill, who is presiding at the hearing, were two nautical experts and advisers, Captain E. P. Jessup, a graduate of the Naval Academy and a consulting engineer in New York, representing the United States government, and Captain Henry McConkey, marine superintendent of the Cunard line, representing the British government.

Burning Raw Coal Is Economic Crime

Smoke Represents Waste Of Untold Wealth Says Scientist

(International News Service)

PITTSBURGH, Nov. 20.—The burning of raw coal is an "economic crime," President Thomas S. Baker, of Carnegie Institute of Technology, declared today in discussing the keynote of the second International Conference on bituminous coal to be held here from November 19 to 24.

The smoke that goes up chimneys represents the waste of untold wealth—a waste that might be avoided if the coal was treated to extract petroleum and other by-products, Dr. Baker said.

This problem is the "big problem" confronting coal scientists and will be one of the most important topics of discussion at the coal conference here this week.

Science, Dr. Baker pointed out in an interview, can now extract perfume, explosives, motor fuel, medicine, fertilizer, chemicals and countless other by-products, and yet millions of tons of coal are being burned in the raw state yearly merely to provide heat or energy.

Some scientists differ with Dr. Baker's attitude that the burning of raw coal is an "economic waste and crime." They maintain that it is much cheaper to burn raw coal than it is to subject it to the distillation processes.

Be that as it may, indications are that the coal conference here will be turned toward the manufacture of oil from coal for these coal scientists, looking far into the future, foresee a time when the petroleum supply may be exhausted.

No Need to Diet at Any Age

PLENTY of people past "three-score-and-ten" eat what they please without penalty. They don't have heartburn, or flatulence, or any distress due to excessive acid. But they do take care of their stomachs—with "Pape's Diapepsin." Thus, their digestive organs are soothed, healed and strengthened in a wonderful way, and normal healthy digestion results.

Because it is so quick, so safe and so sure in ending digestive troubles, millions recommend "Pape's Diapepsin." "Pape's Diapepsin" is unequalled as an indigestion remedy and food corrective, yet it costs only 60 cents a package at all druggists.

If your stomach ever torments you get "Pape's Diapepsin" at once and recapture the pleasure of care-free, painless digestion. You may have felt that nothing can help your particular difficulty, but so have others to whom this remedy proved a pleasant surprise.

Railway Clerk Given Sentence

(International News Service)

PITTSBURGH, Nov. 20.—George F. Aberth, 28, of Buffalo, N. Y., a railway mail clerk, pleaded guilty to theft of $13,000 from a registered mail package and was sentenced to serve three years at Atlanta by Judge Nelson McVicar in federal court Monday.

According to postal inspectors, Aberth on August 20, 1927, tossed a package consigned by the Pittsburgh branch, Federal Reserve Bank, to the Arnold Deposit National Bank at Arnold, Pa., from a mail car. He later recovered the package and buried part of the money along the Allegheny river bank. The government recovered $3,200.

General Motors Personnel Will Undergo Change

(International News Service)

DETROIT, Nov. 20.—Changes of the greatest importance in the official personnel of the General Motors corporation are in the offing, according to reports in high automotive circles, The Detroit Times says.

Alfred P. Sloan, president, is scheduled to become chairman of the board of directors and Fred J. Fisher, vice president, is slated to fill the position now occupied by Sloan, it is reported, according to The Times.

Continuing The Times' story says:

The changes are being brought about by the retirement of John J. Raskob, as chairman of the Finance committee and as a member of the executive committee, and by the wish of Pierre S. Du Pont to retire as chairman of the board of directors.

Fred J. Fisher has been identified with General Motors since the Fisher Body corporation was absorbed and is now vice-president. During the past two years he has become one of the important figures in Wall Street.

Doctor Boone To Accompany Hoover

WASHINGTON, Nov. 20.—Lt. Commander Joel T. Boone, assistant White House physician, was granted leave by President Coolidge Monday to accompany president-elect Hoover on his South American tour. Boone will join the Hoover party in Panama.

Glimpses Of Nature

By OWEN PENFIELD FOX

Now that the chilly winds of winter have chased away the song birds of summer, let us plan to make their visit with us next spring more welcome.

Of all the wild children of nature there is no doubt that the bird is loved best by man. As you go about your daily task you are cheered by the songs of many birds. You find them as you walk the paths in friendly woods, and they will come to your back yard and be your friends if you show a little forethought and scatter a little food for them.

There is no more fascinating pastime in the great outdoors than the study of bird life.

The mating time of the birds in springtime, the building of the nests and the constant care of the parent birds to the fledglings; compare the tiny humming bird who flits in and out among the columbine with the white breasted nut hatch. How different are the flute-like notes of the kinglet to the chatting call of the catbird. Then compare the notes of a hermit thrush with that of a sandhill crane whose call may be heard a mile away when the air currents are right.

All nature lovers get a thrill from the call of the loon, the scream of a red-tailed hawk. What a treat to listen to the booming of the bittern. They are all talking to us in the language of the wild.

I recall the mocking bird as he flew into a thicket white with dogwood, then on to an ash tree, where he sang like a lark, then mimmicked the thrush and mocked the oriole. Oh, what singing. He sang as if he was courting the world.

I took advantage of the mild fall weather of the past few days and paid a visit to the woods. Walking along a path bordered by big trees, and here and there I could see a network of wild grapevines, and above me the sky showing red by the reflection of the setting sun. The woods were taking on a purple and hazy mist, and through this mist I watched some chicadees move from bough to bough on a beech tree, then gone like a flash, no doubt to find shelter for the night. Here are birds that do not migrate, but brave the storms of winter in constant effort to obtain food. We find cardinals, bob whites, chickadees, wrens and in some places the friendly robin.

Football Victory Well Celebrated

Westminster Students Celebrate Victory Over Waynesburg —Prepare For Geneva

(Special To The News)

NEW WILMINGTON, Pa., Nov. 20.—Yesterday was a holiday for Westminster students and faculty members as the college folks celebrated in a quiet manner the football victory over Waynesburg on Saturday.

No classes were held but at 4:30 yesterday afternoon a regular chapel service was held in the United Presbyterian church. Dr. W. Charles Wallace presided, and he voiced the opinion of the whole campus when he said that last Saturday's victory is not the thing uppermost in the minds of all Westminster folk but rather next Saturday's game here with Geneva.

After a few remarks concerning pep meetings to be held this week in preparation for the Geneva game, President Wallace introduced the Rev. Dr. George S. Lackland, pastor of the Meadville M. E. church, who visited the college under the auspices of the national student Y. M. C. A.

Dr. Lackland spoke for 25 minutes on "Religion in the Modern World". Said the speaker: "Science has brought into being a greater religion," Dr. Lackland pointed out the marvels of space, and other scientific phenomena known today. He showed that the universe is so vast that the human mind cannot hope to think in terms familiar to scientists without becoming dizzy with the thoughts.

In concluding, Dr. Lackland said that psychology, sociology, astronomy, geology, chemistry and the other sciences come sooner or later to the discovery that reality is not only material, but that the unknown or spiritual is always in the background.

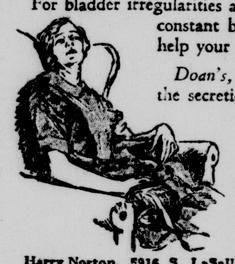
Following his talk, Dr. Lackland received a fine ovation from the student body, and the meeting was concluded with the singing of the Westminster hymn.

Worried About Your Health?

You Can't Feel Well When Kidneys Act Sluggishly.

IT isn't right for one to always feel tired, achy and depressed. Too often this warns of sluggish kidneys and waste impurities in the blood.

For bladder irregularities and for the lameness, stiffness and constant backache due to sluggish kidneys, help your kidneys with *Doan's Pills.*



Doan's, a stimulant diuretic, increase the secretion of the kidneys and aid in the elimination of waste impurities. They have won a world-wide reputation. *Ask your neighbor!*

50,000 Users Endorse Doan's:

Harry Norton, 5916 S. LaSalle St., Chicago, Ill., says: "I think it was severe colds that disordered my kidneys. I felt tired and the kidney secretions passed too frequently. I was so stiff and lame that after I stooped it was a job to straighten. My back was sore, too, and I had headaches and dizzy spells. Doan's Pills gave me quick relief."

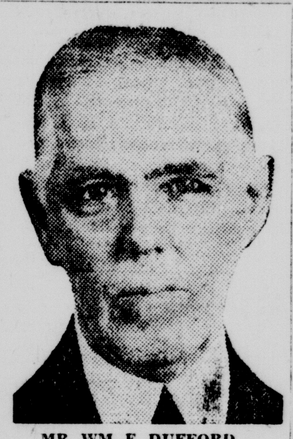
HIS HEALTH CAME BACK SOON AFTER HE GOT KONJOLA

Another New Castle Citizen Is Relieved Of That Tired, Worn-Out Feeling.



MR. WM. E. DUFFORD
Seavy Photo

Amazing reports are coming from men and women in all walks of life who have taken this new Konjola medicine and were delivered from their health troubles. This advanced remedy is a liquid compound. It contains juices from twenty-two roots and herbs, thus forming a medicine that cleanses the inner-syster restores healthy digestion, invigorates the stomach, liver, kidneys and bowels, and strengthens the nerves. Konjola has also banished cases of rheumatism and neuritis for many New Castle people who have suffered for years.

The Konjola Man at the Love and Megown drug store, 204 East Washington street, is personally meeting throngs of people throughout each day and explaining Konjola. At the same time others already benefited by this famous remedy are offering some very unusual indorsements about it. A few days ago Mr. Wm. E. Dufford, 713 W. North street, this city, made the following statement:—

"Within a short space of three weeks, Konjola has completely restored my health," said Mr. Dufford, "and this is the first time in several years that I have been entirely out of misery.

"My health in general was getting worse during the past year and it really had me worried, especially since I was unable to find a remedy to help me. I would wake up in the morning with a headache and right after eating I would feel sick at the stomach. My liver was dull and inactive and this made me sluggish and drowsy most of the time. I had no pep or energy and by the time I retired at night I was so tired and worn out that I felt that I would never wake up. But still I never got a good night's rest. My kidneys were in such a disordered condition that I was forced to rise several times during the night and this kept me from going sound to sleep. I tried different remedies for relief, but nothing seemed to help me and I was becoming very discouraged.

"Then a friend of mine recommended that I try Konjola. It turned out to be just what I needed to build me up. The first few doses settled my stomach and ended the half-sick feeling that came over me after eating. By the end of the first week I could tell it was helping my kidneys because I only had to get up once or twice during the night. Now, the night risings have stopped altogether and my kidneys are in perfect condition. This medicine also restored my liver to more normal action and took away that tired, sluggish feeling that hung over me all the time. Since I have finished the treatment, I have a better appetite, enjoy sound, peaceful sleep at night and have plenty of pep and energy the next morning. I can certainly recommend this medicine to anyone, because I know what it will do."

The Konjola Man is at the Love and Megown drug store, 204 East Washington street, New Castle, where he is daily meeting the public and introducing and explaining the merits of this remedy. Free samples given.

Konjola contains juices from 22 plants—more than other medicines. It is a new compound that works with the sufferer's food, restoring more healthful action to the important organs (stomach, liver, kidneys and bowels) and producing new energy and glorious health in a natural way, thru the entire inner-system.

Thirty Million Dollars Will Be Distributed In Christmas Funds

Banks Of State Prepare To Pay Out Christmas Savings Funds

Approximately $200,000 Will Be Distributed In Funds Here

(From News Bureau)
(State Capital)

HARRISBURG, Nov. 20.—Banks and trust companies within the next few weeks will distribute checks approximating $30,000,000 to their patrons who are depositors in Christmas savings funds. These checks will be mailed by the financial institutions reporting to the State Banking Department and do not include any totals from National Banks operating in Pennsylvania.

At the time of the last bank call October 2 the various banks and trust companies under the jurisdiction of the state had 704,606 patrons on the books as depositors in Christmas saving clubs. Most of these depositors will remain until the distribution is made banking officials believe.

The number of depositors on record last month was below the total that received checks in December 1927. Last year the banks and trust companies in Pennsylvania under the supervision of the Banking Department distributed $35,749,412 to 727,161 persons.

For the last several years the average check distributed to depositors has been between $45 and $50. With more than 700,000 individuals having Christmas savings accounts in the various state banks and trust companies the amount to be paid out this year should run between $30,000,000 and $35,000,000.

In 1926 these financial institutions paid out $33,041,535 to 676,642 persons. That year the amounts paid out and the number of depositors was higher than in 1925. The 1925 distribution was $25,976,156 which was paid out to 643,549 depositors.

Approximately $200,000 will be distributed by the state banks and trust companies of Lawrence county in Christmas fund checks. The banks on the date of the last call had 255 depositors and the trust companies 4171 in Christmas clubs.

"Night Riders" Go On Trial

Alleged "Night Riders" Of Barton District, Ohio, Face Court Charges

(International News Service)

ST. CLAIRSVILLE, Ohio, Nov. 20—John Eberhardt, alleged leader of a gang known throughout the Barton district as the "Night Riders", and accused of attempting to lynch two women and a man last September, went on trial in the Belmont criminal court today charged with riotous conspiracy.

Eberhardt, a former mine foreman, pleaded an alibi. Counsel for the man told the court that Eberhardt was not present on September 11, the night when a group of black-robed men are said to have taken Mrs. Goldie Wheeler, Anna Gallagher and Lester Berry from an automobile on a road near Barton and tied the Wheeler woman and Berry to a tree.

A half dozen witnesses were summoned to support Eberhardt's testimony.

The prosecution charged that the group of "Night Riders" placed a noose around Berry's neck. The three victims of the alleged lynching and John Gallagher, father of the Gallagher woman, were in court to testify.

Labor Federation Hotly Attacked By John E. Edgerton

President Of National Manufacturers Association Scores Organized Labor

(International News Service)

NEW YORK, Nov. 20.—Accepting the challenge of William Green, president of the American Federation of labor, to offer proof that the federation was "a menace to American institutions," John E. Edgerton, president of the National Manufacturers' association, today amplified the association's previous charges in a statement to International News Service.

Edgerton declared that the A. F. of L. in attempting to set itself above the law "defying the courts of the land and claiming superior rights for themselves is a menace to American institutions."

Replying to the attack on manufacturers' war records by Green in his address at the opening of the A. F. of L. convention at New Orleans, Edgerton charged that during the war "there were more strikes for higher wages among the workers of American industry than during any similar period in our history."

"Mr. Green took occasion to play further upon the passions of his hearers by going back to the World war period and stating that 'while we were serving in defense of our institutions some of these manufacturers were profiteering'," said Edgerton. "He did not, for apparent reasons, mention the fact that thousands of manufacturers were serving during the war without pay on various boards and in a multitude of other ways, and, he said nothing about wageteering."

Smith Urges Club To Boost Aviation

Delivers Encouraging Message To New Castle Lions Club Today

"Interest in aviation is growing, and like many other cities New Castle is bucking up aeronautically," said Captain Ronald J. Smith, efficient air pilot and member of the British Royal Flying corps during the World war, as he delivered an address on his experiences in flying before the members of the New Castle Lions club at their regular Tuesday meeting at noon.

"I would like to see each member of this club boost aviation," the flyer continued. "Aviation is growing, and New Castle must keep apace." Captain Smith urged the members to do a number of things that will promote aviation, among which was that of the warning he especially requested each Lion to spread. He said "I want every member to warn others of touching airplane propellors as the machines stand around. Pilots will deeply appreciate this." According to Smith, propellors are tremendously dangerous and should not be touched by enthusiasts.

Smith told of how he enlisted in 1915 to serve in aviation during the war. He cited several hair-raising experiences which he encountered during his service, to the enjoyment of the club members. They were stirring!

Preceding Smith's message, the Vernon Serenaders entertained the club. Archie Cubbison also gave a number of his original parodies.

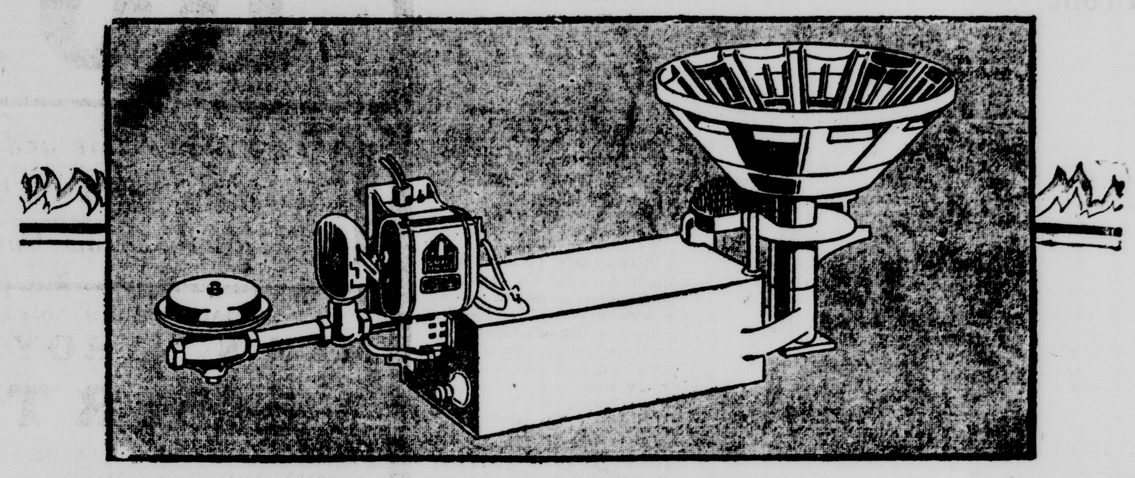
HEAT WITH GAS



$15 Down—$9.44 Monthly Puts An Automatic Gas House Heating Machine In Your Present Coal Furnace or Boiler—Only $15 Down!

Time to Act!

Cold weather is due any time now. If you will just send in the coupon below or telephone for a man to call, we can convert your present coal fired hot air, steam or hot water heating plant into an automatic gas fired heating system....one that will work without any attention from you.

There is still time to be ready for the first onslaught of Winter. But hurry! Send the coupon.

Fits Any Coal Furnace or Boiler

The Surface Combustion Gas Heating Machine can be slipped into your present furnace or boiler in less than half a day. There is no muss or dirt to the job. Your cellar won't be torn up.

Just the old grate bars come out and the automatic gas machine goes in. Gas pipes are connected, thermostat control is installed and that's all there is to it. You are ready to enjoy automatic heat the rest of your life.

Low Cost

Low first cost and economical operation costs are big features of automatic gas heat. Gas heat is not expensive. Under automatic control only enough gas is used to keep the house warm. None is wasted. The thermostat takes care of that. Likewise the house is never overheated....think what that means for the health protection of your family. After an inspection of your home and present heating system we will give you a reliable estimate of the cost of gas heat.

The automatic gas heating machine is sold two ways:

$175 cash installed or $185 installed with 18 months to pay. Only $15 down and $9.44 monthly.

Easy! Easy! Easy!

Automatic gas heat is as easy as pushing a light button. You push the indicator on your thermostat to 68°....70°....72° or higher if you want. Automatically your home is heated to that degree and kept there.

And that's all the furnace firing you'll ever need to do.

Gone forever are the worries of coal firing, the drudgery of it, the dirt, bother and muss of it. No more ashes....exasperating battles to coax a stubborn fire to "catch up."

Housework is easier, too, for the simple reason that you won't need a speck of coal in the place and, of course, there won't be any soot nor any ash dust to filter through the house.

Automatic gas heat is the easy way to complete heating satisfaction and we've made it easy for our consumers to enjoy. Won't you fill in the coupon and send it now or just telephone?

Automatic Heat Wins Praise

Thousands of our consumers in other sections of the territory are loud in their praises of the automatic gas heating machine. Here are a few expressions.

Cost Low:

"The features of this burner to me are convenience and uniformity of heat. The cost is very little above coal."

Even Heat:

"Our home was at a nice even heat at all times both day and night and if I remember correctly the gas bills were less than oil."

Satisfactory:

"Satisfactory in all respects. No other fuel needed. Better than janitor service. Uniform heat at all times. Safety pilot a great feature."

Dependable:

"I am glad to report that my Surface Combustion Burner has been satisfactory . . . . the Burner is economical in its gas consumption. It is very dependable and requires no aid whatever on the coldest days. Its best feature is its uniformity, and then in order: convenience, safety and operating cost."

Labor Saver:

"We heat with hot air and had plenty of heat when neighbors on each side were cold. We like the dependability of this system; also the labor saving quality. We have no men in the house and feel it is a very satisfactory system for women to operate."

Forney Holds Valuable Tips In Rum Probe

Convicted Rum Ring Conspirator May Reveal Valuable Information

INSPECTOR FAULKNER IS NOW ON "CARPET"

(International News Service)

PITTSBURGH, Nov. 20.—Alfred W. Forney, convicted rum conspirator and alleged slot machine racket king, became the "key man" in the federal government's efforts to convict the higher-ups in Pittsburgh's politically controlled liquor conspiracy again today.

Forney, who was taken from his cell in county jail and grilled for three hours by United States Attorney John D. Meyer, is believed to hold information upon which conviction or failure of the federal rum probe hinges.

Police Inspector Charles Faulkner was today "under fire" of two investigations—the federal northside rum conspiracy trial and the grand jury probe of graft in Allegheny county—as the result of damaging evidence given by witnesses in both investigations charging the inspector was a protector of vice and bootlegging in his district.

Faulkner Under Fire.

In the federal trial Lewis Lipshitz, alleged bootlegger, testified that the inspector had ordered him to quit because he did not buy more moonshine and not from the designated persons. William Herd, Republican chairman of the 21st ward, was again implicated in the conspiracy when a witness testified he had to seek permission from that source in order to sell liquor.

District Attorney Samuel H. Gardner in his grand jury graft probe centered his investigation on the northside's "Little Canada", and summoned alleged dive keepers to give testimony. Gardner's turning the investigation spotlight in regards to the breakdown of law enforcement there.

Gardner opened the ninth week of the probe by placing J. A. Murray, named as one of the directing heads of the Louisiana state lottery, on the stand. He was returned here from Philadelphia and declared his intentions of telling everything he knew about the lottery operations in this city.

Misapplication Of Funds Charge Against Edwin Flick, Dropped By Court

(International News Service)

FRANKLIN, Pa., Nov. 20.—The charge of misapplication of funds against Edwin Flick, 25, former cashier of the Citizens Bank of Pleasantville, which was robbed and burned last August, has been dropped by order of Judge Parker, it was announced today.

The indictment was squashed on pleas of Flick's attorneys, but the indictments of burglary, larceny and arson were not ruled on by the court. In their efforts to kill the indictments the attorneys claimed that there were defects in the reading. The matter was up for further argument.

Temporary Firemen Added To Department

Two Men Take Places Of Others Off Duty, Says Chief Lynn

Two temporary firemen have been added to the New Castle fire department, according to Fire Chief Charles H. Lynn. The men are taking the places of firemen who are off duty at the present time.

Norman McFarland and Phil Crane states Chief Lynn are the temporary men and at the present time are attached to the Central fire department on South Jefferson street.

THE TRAGEDY OF MANY LIVES IS CONSTIPATION

Guard against it in time

This evil scourge ruins thousands of promising men and women. It saps vigor. It kills initiative. It wrecks health and happiness. Sleepless nights, dragging feet, headaches, pain-dulled eyes, follow in its wake. Frequently it leads to lasting and serious disease.

Yet there is safe, prompt relief. Kellogg's ALL-BRAN is guaranteed to relieve constipation. To surely prevent it. ALL-BRAN is 100% bran—100% effective. Doctors recommend it. Two tablespoonfuls daily — chronic cases, with every meal.

Don't you agree it is better to cure constipation with this healthful cereal than to try dangerous pills and drugs? Or uncertain part-bran products? Delicious with milk or cream—fruits or honey added. Use it in cooking too. Sprinkle it into soups. Sold by all grocers. Served everywhere. Made by Kellogg in Battle Creek.

Plans Perfected For Stamp Meeting

Over 75 Collectors In This Section Will Be Present Friday Evening

Invitations to all members of stamp clubs and many individuals who are known to stamp collectors have been sent by the New Castle Stamp club for the first intersectional meeting of stamp collectors which will take place at the New Castle Y. M. C. A. Friday evening November 23 at 8 o'clock it was revealed today at a meeting of the local stamp club which took place Monday evening.

Further arrangements for the intersectional meeting were also perfected at Monday evenings meeting. All former stamp collectors of New Castle as well as those adults who believe that they might be interested are urged to attend the intersectional meeting. Beaver Falls, Sharon, Youngstown, Farrell, Greenville, Grove City, Franklin and Oil City as well as many other smaller towns will be represented at the meeting. Over 75 adult collectors are expected to attend the meeting.

Boy Injured When Hit By Motorist

John C. Eichert of Evans City, Pa., reported to the police Monday that he was driving north on Liberty street near Madison avenue, when a boy named Paul Felix, 231 North Cedar street, ran out in the street in front of his machine and was knocked to the pavement.

Mr. Eichert took the boy to the New Castle hospital where it was found that he was suffering from minor injuries of the face and head and possible injury of some ribs.

An X-Ray picture taken this morning showed that no bones had been broken.

Man always justifies himself, and no doubt Cain thought he was doing it in support of a great moral issue.

Your Broadway And Mine

By WALTER WINCHELL

(Exclusive Central Press Dispatch to The New Castle News)

NEW YORK, Nov. 20.—As a collector" of slanguage, you may be interested in the following samples of the vernacular in use among musicians:

"Horn" is the designation for any of the wind instruments. To say that a musician has "lost his lip" is to imply or asseverate that he has gotten stale. Bass violins are "bull fiddles" or "dog houses". To refer to an instrumentalist as "corn-fed" or "tinny" is to term his jazz interpretations old style or "has been", in which case the designation of "Mr Magee" is also appropriate. A musician is "plenty" and "really goes" when he's hot, in a modern way. To "cut the wax" is to make a phonograph record. To "job" is to play single night engagements, and to "take the break" means to solo or "cadenza" a hot trick or figure in an orchestration.—George D. Lottman.

"INSIDE STUFF"

The most interesting of the Main Stem topics at present is the Arnold Rothstein case. The police department has been wrangling with officials over this or that, and the late gambler's kin have been tiffing over the will. But what strikes this corner as being vastly entertaining is the fact that Rothstein, who died "property poor", has $1,500,000, they say, in outstanding gambling debts.

Those "in on the know" will tell you that Inez Norton, Rothstein's "heart", is popular with the gambling fraternity. They'll also tell you that if the Rothsteins press their suit to break the will and succeed in closing out Miss Norton, the creditors will never settle their accounts with the estate, and then all concerned will get "eppis", which in Jewish means "something", but when it is used on Broadway it is sarcasm for "nothing".

• • •

STAGE LOVE BECOMES REAL

You might have seen them on the stage making such fervent and realistic love that the audience left the theater marveling at their unusual make-believing, but Edna Best and Herbert Marshall of Charles Dillingham's hit, "The High Road", at the Fulton theater, were impersonating lovers in the Frederick Lonsdale manner. They were telling each other (via the author's manuscript) of their devotion, perhaps, but they were telling whatever else sweethearts tell each other with the touch of a hand or with their eyes every moment during the proceedings.

• • •

HE ET WITH ETIQUETTE

Take it from Contributor "Vinny", who asserts he overheard it in the subway—

"Got a sweetie yet, Tillie?"

"Yeh, an' heez a reg'lar gentleman, too."

"No kiddin'?"

"I hope I drop dead He took me to a rest'rant las' night and poured his tea in a saucer, but he didn't blow it, like common people do—he fanned it with his hat."

• • •

CAP. KIDDING THEMSELVES

The new musical comedy, "Treasure Girl", which Aarons and Freedley brought to their Alvin theater, is one of those productions in which the chorus girls and their stepping make the star and principals look silly. To be more specific, the ensemble maidens, who stopped the proceedings with their entrancing footwork, arranged by Bobby Connolly, did make Gertrude Lawrence and her alleged comedians look silly. In fact, they made them appear to be the most tiresome and unamusing group of stellar players this spectator ever witnessed. It is also the type of show in which they revive such stale quips as "Do you mind if I smoke?" To which the breezy retort is: "I don't care if you burn".

It is not being too curt to record that "Treasure Girl" is a vastly disappointing attraction, which boasts of a George Gershwin score, among other things. Mr. Gershwin's score, while pleasant, offers little to remember. It is all better described as "nice". It is never contagious, however.

Consistory Dinner On Friday Evening

Committee Anticipates Record Attendance At Event—Good Program

Returns for the dinner and dance to be held at the Cathedral Friday evening are coming in fast and indications point to a large crowd for the occasion. The entertainment committee headed by Hon. W. E. Porter promise one of the best entertainments yet held at one of the dances. His committee is a live one and some good fun will be had.

The dance will be one of the features of the occasion as has beeen the case in the past and the large crowd can rest assured that their interests will be properly looked after.

Hon. Wm. Moffatt general chairman of the dinner parties takes a great interest in them and the programs for the occasions and has promised those attending Friday night's party a most enjoyable time.

Butler, Franklin, Oil City, Sharon, Greenville, Beaver Falls, New Brighton and other near by towns will be represented at the event.

Mrs. P. C. Pearson Discusses Play

Says "Saintly Sinners" Is Built Upon Plain Faces; Reason For Success

"The general impression that the best plays and the best novels must be based upon some extraordinary and partially imaginative proposition is far from true," declares Mrs. Philip C. Pearson, coach, talking of the theme and plot of "Saintly Sinners," by Charles F. Harrison, the comedy-dr ma success to be seen at the guild room of Trinity church next Thursday and Friday evenings.

"Consciously or unconsciously, the public will accept only such situations as naturally would arise from plain facts, and that's why 'Saintly Sinners,' a play unheard of a year ago, is scoring triumphs everywhere—it's built upon plain facts. It is a great play, one that will strike a sympathetic chord in your heart even as it causes you to roar with mirth at the peculiar characters and laughable situations. It carries a powerful moral punch and yet is bubbling over with wholesome comedy."

MINER IS KILLED BY HIT-RUN DRIVER

WASHINGTON, Pa., Nov. 20—County detectives are investigating the death of Manual Macalna, aged 25, Harmon Creek miner of Burgettstown who died in the hospital here from hurts received when struck by a hit-and-run driver. A broken rib punctured his lung causing death. He was discovered lying in a ditch along the road.

Officers believe that the man may have been robbed. He had been drinking and was walking from Burgettstown to Harmon Creek. In a suitcase was the address 22 Sandusky street, Northside, Pittsburgh.

Congressional Budget Of Four Billion And Quarter Is Certainty

Largest Budget Appropriation In History Expected To Be Ratified

Five Billion Budget In Next Few Years Is Seen; Strict Economy Pledged

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, Nov. 20.—Congress in the coming session may be called upon to appropriate $4,700,000,000 to $4,750,000,000—the largest budget in history outside of war and immediate post-war days—it was said today by both Republican and Democratic leaders of the house appropriations committee.

At the same time it was agreed that the growth of the nation makes a "five billion dollar congress" a certainty in the not far distant future.

Pledge Economy

Strictest economy was pledged by members of the appropriations committee regardless of party as they began framing bills for congress to take soon after convening.

Many great construction projects launched by Congress last year will necessarily increase the $4,633,577,973 budget for 1929, it was said.

Rep. Will R. Wood, (R) of Indiana, ranking Republican on the committee said. "The public buildings program, the postal sub-veention for American ships, the Welch salary bill for Federal employes, the Mississippi River Flood bill and other measures will necessitate large appropriations. He said the increase would be less than $100,000,000.

Boost New Program

Rep. Joseph Byrns (D) of Tennessee, ranking Democrat, estimated the increase at a higher figure than Wood. He believes that the total will be around $4,750,000. He, too, ascribed the prospective boost to new programs.

Byrns said that the "five billion dollar congress" would come in the next few years.

Congressional budgets for the last six years are:

1923—$4,248,140,469.
1924—$4,092,544,312.
1925—$3,748,561,750.
1926—$4,151,683,049.
1927—$3,893,879,991.
1928—$4,633,577,973.

Decrease in interest on the public debt is the principal way in which cost of government can be reduced, it was said. Each year the postal service requires more money, and cost of the Veterans Bureau will rise, experts say. The growth of the country, although it required extension of government services, brings a greater income as an off-set.

Farmers Show Wares At Big Exhibition

Hay And Grain Show Will Start In Chicago On December 1

(International News Service)

CHICAGO Nov. 20—The International Grain and Hay show will be held at Chicago December 1 to 8 as a department of the International Live Stock exposition.

Farmers may enter, without cost, samples of 23 different crops in the 80 contests of the show for which 1,150 cash prizes and seven silver trophies are offered. Official representatives of each state will be present to unpack and display the samples of their states and will return the samples to the exhibitors if desired.

Samples of wheat from Australia have been received and will compete against Canadian wheat grain sown within the Arctic Circle. The United States and Canada has been divided into eight regions to equalize competition and the winners in each region will be brought together to decide championship honors.

The leading agronomists of Nebraska, Iowa, Minnesota, Illinois and Indiana have been invited to serve on the corn judging committees while the judges of small grains will be nominated by the agricultural colleges of Montana, Wisconsin, Michigan and Ontario.

Warns Women to Check High Blood Pressure

Thousands of women at the changing time of life are in danger of high blood pressure. It is caused by poisonous waste matter accumulating in the system or the weakening of one or more organs. This forces the heart to do more work and raises blood pressure.

The symptoms are dizziness, shortness of breath, head pains, flushed face, nervousness or sleeplessness. High blood pressure must be treated at once for everyone knows it is too dangerous and quick acting to disregard its symptoms.

Norma is a doctor's prescription for high blood pressure that has been used with great success.

Norma contains no habit forming drugs, and works in such a way that it lessens the duty of the over-taxed heart and reduces blood pressure swiftly and surely. Often one bottle brings great relief. Get a bottle of Norma today from any drug store, and free yourself from the symptoms of blood pressure.

Farmers Can Get Plant House Plans From County Agent

Time Now To Build Plant Houses In County, Says County Agent McCulloch

Plans for the building of an inexpensive plant growing structure for county farmers may be obtained from the farm bureau office on Croton avenue, states Harold McCulloch, county agent. Farmers may also get the aid of gardening specialists in constructing and operating this type of house.

The houses for the planting of seeds should be built prior to freezing weather in order that all may be in readiness for planting time in February, states McCulloch. The benefit of such a house is that a farmer may plant just what seed is best suited for his own needs.

A small 10 to 18 foot sash greenhouse is most generally used by persons wishing to grow some 15,000 plants each year. There is little cost as practically the entirety of it can be found in scrap heaps about a farm. An old stove is all that is necessary for the heat.

Mr. McCulloch has sufficient copies of plans for this type of structure that all who desire may get copies from him. Every sort of aid will be given to those building a plant house by Penn State College and the county agent.

East Brook Hi-Y Club Will Meet Wednesday Night

Members of the Eastbrook Hi Y club of the East Brook high school will meet Wednesday evening in the school, according to the announcement of William Thomas, boys secretary of the local Y. M. C. A.

The East Brook club is composed of 25 members and was recently organized by the New Castle Y. M. C. A. Advisor to the club is J. W. Anderson, principal of the high school.

The group meets weekly and one meeting each month takes place at the Y. M. C. A. in this city.

The addition of this Hi Y club makes a total of four such clubs sponsored by the New Castle Y. M. C. A. in the county.

FINNEFROCK GOING ROUND WORLD.

San Francisco, Cal., Nov. 14, 1928.
Mr. George W. Conway
Editor New Castle News,
New Castle, Pa.
Dear Sir:—

Well I've been half way around—now it remains for me to go clear around then my trip will be ended.

I am leaving San Francisco the 16th of this month for Honolulu on the S. S. President Munroe of the Dollar Line. We sail from Honolulu to Kobi, Japan, and then on around the world, stopping at the following ports: Hong Kong, China; Shanghai, China; Manila, Philippines; Singapore, India; through the Suez Canal to Port Said; Alexandria, Egypt; Naples and Genoa, Italy; Marseilles, France; Boston and New York Back home. To Havana, Cuba; Colon, Panama; and back to the starting point—San Francisco.

I am anxiously awaiting my arrival in Singapore, as the mysteries of India have always appealed to me. And Egypt with her Sphinx and Pyramids and her river Nile, upon which I hope to spend a few pleasant hours. Beyond this my imagination ceases to function.

I'll drop you a line sooner or later from some place and since I'm leaving in only two days the news won't be very long in coming—in other words it won't be long now.

My next address will be "S. S. President Munroe, Dollar Steamship Company, Alexandria ,Egypt."

Tell the folks to get busy and write to me at that address and letters must be written immediately, because they will just have time to get there by the time I do.

Cordially,
F. M. FINNEFROCK.

Big Membership Drive Starts For American Legion

Two Teams Of Thirty-Five Men Each To Battle For Victory In Contest Here

ELLWOOD CITY, Nov. 20.—At the regular semi-monthly meeting of the J. Wilbur Randolph Post of the American legion which met Monday evening in the Legion rooms on Fifth street, plans for a big membership drive were adopted by the comrades.

There will be two teams of thirty-five men each, the one captained by Hugh Holliday, and with Thomas C. Slater heading the other team. The contest begins at once, and will last until January first, at which time the losers will tender a banquet to the winners. The points counting in the drive are according to new members, renewals, increasing attendance and for steady attendance of meetings. Much enthusiasm has been evinced over the project, and when the contest expires it is expected that the high-water mark of two years ago will have been attained.

At last night's meeting a program was presented as follows: Meck Yohva and Frank Fanno sang and played harmonicas for several pleasing selections. The meeting concluded with refreshments and a social period. The lunch was in charge of Mess Sergeant Harris. The local commandery of the Legion meets on the evening of the first and third Monday of each month.

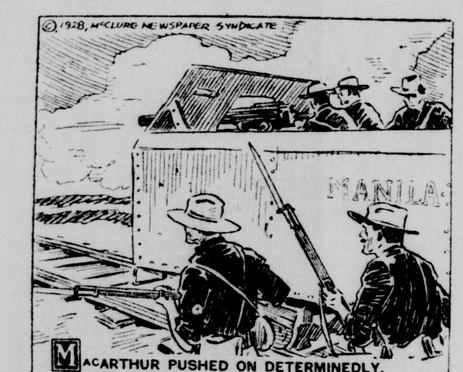
MacArthur Resumes His Advance

THE CAPTURE OF MALOLOS, THE CAPTIAL OF THE INSURGENTS, BY THE AMERICAN FORCES (MARCH 31, 1899), DID NOT BRING THE FILIPINO INSURRECTION TO AN END. AQUINALDO SKILFULLY BROUGHT OFF HIS WHOLE ARMY AND WHEN MACARTHUR RESUMED HIS ADVANCE UP THE RAILWAY, APRIL 24, THE AMERICAN GENERAL FOUND HIS WAY CONTESTED MORE FIERCELY THAN EVER.



MACARTHUR PUSHED ON DETERMINEDLY, THROUGH A COUNTRY CUT BY NUMEROUS WATERCOURSES, EVERY STREAM AND BRIDGE DEFENDED ON THE FURTHER SIDE BY THE FILIPINOS. AIDED BY THE GUNS OF AN ARMORED TRAIN, THE AMERICANS FORCED A CROSSING OF THE QUINGUA AND BAG-BAG RIVERS AND PRESSED ON TOWARD CALUMPIT, DRIVING THE ENEMY BEFORE THEM.

WHEN THE BROAD AND DEEP RIO GRANDE EFFECTIVELY BARRED THE ADVANCE OF THE COLUMN (APRIL 27), TWO INTREPID VOLUNTEERS SWAM THE RIVER UNDER A HEAVY FIRE FROM THE INSURGENTS, AND CARRIED A LONG ROPE TO THE OTHER SIDE, BY WHICH MEANS RAFTS LOADED WITH SOLDIERS WERE FERRIED ACROSS.

MAY 4TH, MACARTHUR'S MEN REACHED SAN FERNANDO, AGUINALDO'S THIRD CAPITAL. A LARGE PART OF BULACAN PROVINCE HAD NOW FALLEN INTO THE HANDS OF THE AMERICANS, AND THE INSURGENT ARMY, BEATEN IN EVERY ENCOUNTER, FLED INTO THE MOUNTAINS.

TOMORROW—THE AMERICANS IN CONTROL.

JOHNNY McCOY WINS OVER ATHERTON

Weight Proves Big Handicap

Cavelli, Pacelli And Minteer Win Bouts At Jolly Bowl

CLARK'S DECISION NOT WELL RECEIVED

By ED. FRITZ

Johnny McCoy of San Antonio took the decision at Jolly Bowl last night in a 10-round bout with Happy Atherton of Indianapolis. McCoy outweighed, outreached and outfought the Hoosier. There were no knockdowns, but after the sixth round McCoy had no difficulty with the midget from the West.

When they weighed in eight hours before the battle yesterday McCoy tipped the beam at 117 pounds and Happy was recorded at 113 3-4. They had signed to battle at 118 pounds and this difference in poundage can be held partly accountable for Hap's defeat.

Atherton displayed a good left hand, as he whipped it time and again to face and body, while McCoy's right landed several times with good effect throughout the fight, but many times it was caught on Atherton's glove. McCoy excelled at infighting.

As early as the third the fans noticed that the weight was too much for Happy, but he kept trying. He would get close and then would emerge from a cross-arm, turtle-like defense and whip his left hook to the body or head.

Happy's Best Punch

Atherton's best sock landed in the fifth, when he shot an overhand right to the head. However, the punch did not do any serious damage and when the sixth opened McCoy shoved him around like a bag filled with straw.

McCoy sent four lefts to the head without a return in the seventh, and while he had much the better of the fighting, it was noticeable that he did not follow any of his jabs with a right. He seemed to be nursing his right hand for future use.

Atherton flashed for a few seconds in the eighth, but he could not get past Johnny's long left, and when he opened up smashed Atherton on the nose, inflicted a cut and the blood coursed down over his face.

Crowd After McCoy

McCoy shoved Happy's head over the ropes in the ninth and nailed him repeatedly. The crowd booed McCoy, and when they broke from a clinch the San Antonian landed left and right that forced Happy to wear a forlorn look.

Happy fought back as best he could from his cross-arm defense, which received many of the blows headed for his face and stomach. Happy's blows lacked steam and McCoy's right was held back more for a threat than execution, or else he was waiting for a clear shot to bring Atherton down.

In the tenth they exchanged vicious rights and McCoy sent a couple of lefts to the face. Atherton landed two lefts to the body and a right to the jaw. McCoy retaliated with a stiff right to the chin.

The two rights to each boy's jaw staggered both fighters. Blood leaped from Atherton's nose and McCoy sailed in with flying hands and had the Indianapolis lad on the ropes when the bell ended the fight, which was given to McCoy.

Carl Cavelli Wins

Carl Cavelli, local flyweight, defeated Jackie Powers, Youngstown, flyweight, in a fast six-round fight. Carl crowded the boxer after the first round and gradually got under Jackie's left to the head. Cavelli outfought Jackie in the clinches and in the fourth he sent Powers down for a count of nine.

Powers arose with a bloody face, but recovered quickly and slugged with the Center street boy. There was little to choose between them in the fifth, but in the sixth they stood toe-to-toe and Powers got the worst of the exchange, as one of Cavelli's punches made him clinch and hold on. He had Powers going at the bell.

Pacelli Stops Azzari

Romeo Pacelli, 128, stopped Tony Azzari, 130 1-4, Pittsburgh, in the second round with a left hook to the chin. Azzari started off like a house afire and took the first round, as Romeo tried to slug with the tough, rough Pittsburgh fistic disciple. In the second he boxed and things were different.

He made Tony miss and at every opportunity Romeo tried to nail him with a right on the chin. He changed his tactics and when Tony rushed he shot a short left instead of a right and the punch dropped Mr. Azzari and the curtains rolled down.

Two Good "Openers"

Elmo the Mighty and Warren Farrow, light-heavyweights, went on in the second four-round bout, and while the decision was given to Elmo, a draw should have been the award, in our opinion. Farrow stood right up to Elmo.

For every grimace that Elmo made Farrow also made one. For every blow that Elmo shot, Farrow delivered one. It was a myriad of blows with science tossed to the wind, and they fought a battle which would have been a scream in a comeman's age.

Roy Minteer and Jimmy Engle, bantamweights, fought a stirring four-round preliminary. Jimmy went very good for several rounds, but Roy outbulled him in the last two sessions. However, the fight was close. The decision was given to Minteer.

Out-of-Town Officials

Inclement weather kept the attendance down, which was the smallest since the bowl was started, but inside it was comfortable.

The judges were Frank (Bull) Brown and Jock Simco of the Pittsburgh district. Eddie Kennedy refereed the semi-final and main bout and performed fine. George Chip worked good in the first three bouts.

New Wilmington Has Good Season

Wins Five Games And Ties Two In Season Just Ended

(Special To The News)

NEW WILMINGTON, Nov. 20.—Five victories and two tie games make up the record of the 1928 football season of the New Wilmington High school eleven which closed its official season last Saturday with an impressive victory over the West Middlesex High school team.

One of the most impressive facts in connection with the perfect record of the college town gridders is that they worked under a new coach. C. B. Olsen of Illinois also had difficulties in developing a team because there were only about 16 men out for the squad.

The season's summary follows:

New Wilmington 19, New Castle Trade School 0.
New Wilmington 13, Sandy Lake 6.
New Wilmington 0, Union 0.
New Wilmington 19, Mercer 0.
New Wilmington 0, Bessemer 0.
New Wilmington 13, Hickory 6.
New Wilmington 14, West Middlesex 0.

Students And Coaches Congratulate Football Team At High School

Monday at the senior high great joy was shown by the students at the second meeting of the year which was held for the purpose of congratulating the football team for the record they have made so far this season.

Bridenbaugh Speaks.

After Principal F. L. Orth conducted devotions, Head Coach Phil H. Bridenbaugh made a speech concerning Saturday's victory over Beaver Falls. "The team Saturday was perfect in every way, and I wish to compliment them for playing such a brand of football as they did against Beaver falls. In Bennie Ciccone we have the best center the New Castle football team ever had in football history. One of the most remarkable plays I have ever seen was when Harper was called to carry the ball. Nickie De Carbo opened a big hole for Harper and as he was going through the passage, three or four of the visitors jumped on Tommy and he gave them a nice ride down the field," stated Coach Bridenbaugh.

Players Speak.

"Saturday we defeated a team that was very good in every way, but a team that played a better brand of football won and just because we were victorious by a large count, credit should also be given Beaver Falls. I hope that this team has one more good playing game in their system because they will need it Thanksgiving when New Castle plays South of Youngstown," said Bridenbaugh in his speech. After his speech he called on the following players to say a word or so: Harper, Fernati, Alexander, Ostrosky, Dinsmore, McAuley, Beres, Ciccone, Shaffer, Cuba, Sillman and Howley. DeCarbo, Mooney and Craft were not present.

The next speaker to be called on was "Gig" Thomas, assistant coach. He congratulated the team for the showing made so far this season. "I was speaking to the players and coaches of Beaver Falls and they expressed best wishes for the New Castle team and wished that they would win the W. P. I. A. L. cup. While speaking to them about their defeat they said they had no alibi and that they were defeated by a better football team. I believe that the cheering of the student body had a good part to play in our win over Beaver Falls," stated Thomas. Thomas also said that he had never seen a high school team like the one that played against Beaver Falls Saturday.

The next speaker on the program was William Klee, assistant coach, who spoke about the Youngstown South team. He said he has seen them in action and that they have a good football team that is expected to play a game Thanksgiving that will be worth watching. "New Castle will have trouble with Tomlin, the colored halfback, who boots the ball from 50 to 70 yards," stated Klee. He said that he did not get in New Castle in time to view all the game but the last part of the game he saw he wished to congratulate them for the honest-to-goodness football that they played Saturday.

The next speakers called on were Student Managers Edward Smith and Russell Forney, who complimented the team. Cheer Leaders Sherwood Johns, Otto Pearsall and Ralph Brice led in cheers and songs for the football team during the chapel session.

Principal Orth also spoke a few words at the start of the session stating that he had not seen Saturday's game here but by the way he had been told that the team played he congratulated them for the showing. He said he had seen the University of Pennsylvania play Columbia on Saturday and that he also wished to congratulate the band for the music, and the students for their cheering. He stated that the music and cheering were not up to the standard as they are in New Castle at Philadelphia.

There isn't much the average man can do to observe Thrift Week except to sneak out at the back door when collectors call.

Cornhusker Huskies — By Feg Murray

When the football resume of the year of 1928 is being compiled, I hope the compilers won't forget a kind word for Nebraska, for here is a fine team, game enough to tackle the best and tough enough to more than hold its own in two sections of the country. Say that the 'Big Sox" is not as strong as usual this year, say that the teams Nebraska beats are also beaten by other teams—say what you will, the fact remains that the Cornhuskers of Lincoln did not go out of the way to avoid the tough ones, and have come through to date with colors flying.

The game with the Army at West Point on the 24th should be a pip. The odds favor the Army, because it is playing at home. However, the Notre Dame game showed that the Army is not invincible, and Nebraska for years was the one team that Rockne could not beat, or found the hardest to beat.

In Captain "Blue" Howell, the Cornhuskers have one of the best backs in the country. Against Missouri, a team that had beaten Nebraska for three successive years, Howell starred with two touchdowns, and his vicious drives have gained much yardage in every game he has played in this season. A team-mate, Sloane, should also be a thorn in the side of the Army mule on November 24th.

To the captain of the Yale eleven: "Very good, Eddy."

At Princeton: "And Howe."

At Harvard: "They laughted at me when the team answered with French."

PUNTS AND PASSES

(International News Service)

WEST POINT, N. Y., Nov. 20.—Army begins intensive practice for the Nebraska game today. Yesterday's workout was light due to the rain-soaked condition of the field. The varsity will take things fairly easy this week, with the reserves doing most of the work.

NEW YORK, Nov. 20.—Reserve players, using Carnegie formations, were to be sent against the New York University varsity in scrimmage this afternoon at the start of the week's preparation for the Skibos. O'Herin, Hill, Follett and Strong are slated to start in the Violet backfield on Saturday.

CAMBRIDGE, Mass., Nov. 20.—Reports that Arnold Horween may resign as Harvard's football coach at the end of the present season have roused the Crimson players to a fighting pitch. They are determined to vindicate their coach by handing Yale a thorough beating on Saturday.

NEW HAVEN, Conn., Nov. 20.—The Yale squad will hold no scrimmages this week, the coaches being unwilling to risk further injuries to the Eli players. Dummy scrimmaging, with emphasis on defense against the forward pass, will feature the week's work.

PRINCETON, N. J., Nov. 20.—Princeton's football warriors, returning today from a vacation at the seashore, will be opposed by the scrubs and the Freshmen in practice. The latter spent yesterday in rehearsing the midshipmen's favorite formations.

ANNAPOLIS, Md., Nov. 20.—Knowing the penchant of Princton players for picking up loose balls and converting them into touchdowns, the Navy coaches are drilling the squad this week to guard against fumbles. It is probable that no scrimmages will be held.

Post Season Game Here Not Likely

According to word today from Faculty Manager Ralph H. Gardner, of Senior High, there have been no arrangements made in regard to post-season games for the New Castle High football team.

A rumor has been spread here that New Castle would meet Waite High of Toledo after Thanksgiving, but this is entirely unfounded according to Gardner.

The New Castle team at this particular time is awaiting the decision of the W. P. I. A. L. committee in regard to selecting a schoolboy championship team. It was intimated that New Castle High would not likely bock any games for after Thanksgiving, unless ordered to by the league committee as a means of determining the team to be given the Syracuse trophy cup.

League Managers To Meet Tonight

Tonight at the Y. M. C. A. managers of the New Castle Church league and the City league will gather for the express purpose of talking over the plans for the coming basketball season.

The City league managers and officials will meet with Henry McNicholas assistant physical director of the "Y" at 7 o'clock. It is asked that all teams desiring to enter the city league send representatives.

The New Castle Church league managers will meet at 8 o'clock with Walter Kirker, physical director of the "Y" in charge of the meeting.

Thanksgiving Game To Start At 2 P. M.

Faculty Manager Ralph H. Gardner, of Senior High school, announced today that the Thanksgiving Day game between South High-New Castle, would start at 2 o'clock, instead of the regular starting time.

Coach "Busty" Ashbaugh of Youngstown, has also placed his stamp of approval on the change in time. Fans holding tickets for the "Turkey Day" game are asked to disregard the printed time of starting the game.

Ruby Goldstein Wins By Knockout

(International News Service)

NEW YORK, Nov. 20.—Ruby Goldstein, the flashy East Side boxer who retires from the ring every few months only to change his mind in the throes of another comeback. Emerging from retirement as a candidate for the junior welterweight title, the idol of the Ghetto scored a technical knockout over Al Bryant, Newark, N. J. negro, in the fourth round of their bout at the Broadway Arena last night.

Chocolate Kayoes Jackie Schweitzer

(International News Service)

NEW YORK, Nov. 20.—Kid Chocolate, the sensational Cuban bantamweight, has scored 32 straight victories, including 28 knockouts, in his brief professional career. Last night at the St. Nicholas arena he scored a six-round knockout over Jackie Schweitzer, local boxer who had won 29 consecutive bouts.

Geneva Team Will Find Westminster Hard Foe

(Special To The News)

NEW WILMINGTON, Pa., Nov. 20. With three tri-state conference victories out of four starts, "Dike" Beede's United Presbyterian football team is in second place in the conference and can win first place by defeating the strong Geneva gridders here next Saturday.

The 11 men who played the entire game against Waynesburg came out of the contest in good physical shape, and in addition to these men it is possible that three or four injured men will return to the squad tomorrow to bolster up the U. P. chances against Geneva.

On paper the Covenanters and the United Presbyterians are about even. Westminster followers have been pleased with the playing of Beede's crew in the last four games. From the start of the season it was apparent that the squad had plenty of latent possibilities. Now that the blue and white players have found themselves, Geneva will find them hard to beat.

While Geneva defeated Duquesne and the Dukes topped Westminster, followers of the blue and white point out that with all the U. P. players in shape Beede will have a much stronger outfit than that which faced the Dukes at Pittsburgh.

Starting this afternoon Beede and Lawther will drive the men hard in preparation for Saturday's game. Beede plans to give the United Presbyterians a complete set of new plays to use against the somewhat subdued Golden Tornado from Beaver Falls.

Westminster and Geneva have not met on the gridiron since 1925, when the Covenanters defeated Westminster at Beaver Falls. The renewing of football relations between the two schools here Saturday, strangely enough, will show both teams fighting for the tri-state conference crown. This is the first time in the history of the conference that the United Presbyterians have had a chance at the title, and with six players in their last football game for Westminster it is certain to be a fight from start to finish.

Havrilla, McQuiston, Captain Furno, Lauder, Ayers and Krueger don their grid uniforms for the last time on Saturday. These men will attempt to end their careers by topping the Geneva team. Geneva is by far the favorite, and a victory over the Golden Tornado will be considerable of an achievement.

Class Game At Franklin High

The 9A-1 team defeated the 9A-3 team, 8 to 6, in an interclass basketball game played at Ben Franklin Junior High Monday afternoon.

The Murdock brothers were the leading players on the winning team, scoring all of the points garnered by their team.

The summary:

9A1—8		9A3—6
Reynalds	F	Othites
W. Murdock	F	Kazinski
M. Murdock	C	Leslie
Saul	G	Gregor
Turk	G	Hawke

Field goals: M. Murdock 3, W. Murdock 1, Kazinski 1, Ball 1, Hawk 1.

MEN WHO SMOKE AND GUARD THEIR HEALTH, SMOKE CIGARS

100% of the Principal Executives of the American Express Company are Cigar Smokers

La Palina *is America's Largest Selling High Grade Cigar* [OVER A MILLION A DAY] its outstanding popularity is the best proof of its unusual quality

As a result of a survey it has been ascertained that 100% of the principal executives of the American Express Company are cigar smokers.

Cigar smoking never becomes a habit that plays havoc with the nerves and causes "tobacco throat." For a cigar, if its rich taste is to be enjoyed to the full, is smoked slowly and leisurely. One is not lighted from the end of another to satisfy the demand of harried nerves. Nor does the average cigar smoker inhale. And inhalation is an outstanding source of nerve irritation.

The major amount of throat trouble amongst smokers is due to the burning, drying effect of hot tobacco smoke upon the tender tissues of the throat—and to quote a prominent New York throat specialist: "Cigar smoke is cool, since the tobacco burns slowly and is further cooled and filtered as it is drawn through the body of the cigar, and because no quick-burning substance is used for wrapper."

Make this test for a week—smoke cigars exclusively and you will find yourself feeling better, with no throat irritation and improved nerves, increased vitality and less of that tired feeling. To really test cigars with justice to yourself and to cigars, we suggest the test be made with La Palinas.

Tune in on the La Palina Club Smoker each Wednesday night at 9:30 Eastern Time and on the La Palina Hour every Sunday night at 8:30 over the Columbia Broadcasting System.

Tech-New York U. Game Headlines In Pittsburgh This Week; Army Meets Nebraska

By LES CONKLIN
International News Service Staff Correspondent

NEW YORK, Nov. 20.—Several of the country's leading elevens will be making desperate bids for sectional and national recognition in the semi-finals of the gridiron sweepstakes next Saturday. The day will mark the last appearance of the season but one for practically all of the Eastern elevens scheduled to play a week from Saturday.

Carnegie Tech headed for the Eastern and possibly the National title, faces a formidable hurdle in New York University. The powerful Violet eleven, still smarting from its unexpected defeat by Georgetown on a muddy field will journey to Pittsburgh with a psychological edge on the Skibos. The New Yorkers have played Carnegie twice, in 1926 and 1927, and won both games.

Nebraska vs. Army

By defeating Army Nebraska can recover the prestige it lost by bing held to a scoreless tie by Pittsburgh. And an Army victory will put the Soldiers back in the running.

A Princeton triumph over Navy will furnish further proof that the Tigers' ties with Virginia and Ohio State were all wrong. The magnitude of Princeton's task is indicated by the Midshipmen's smashing 57 to 0 victory over Loyola of Baltimore last week.

Georgetown, with a perfect record except for its loss to Carnegie, should defeat Fordham.

Yale and Harvard close their seasons at New Haven. Although both have been beaten more often than a boarding house rug, hallowed tradition will lend this classic a distinction all its own.

Dartmouth, whose cripples staggered home to a 23 to 0 victory over Cornell last Saturday, journeys westward for an intersectional tilt with Northwestern at Evanston, Ill.

The little Villanova eleven may be dropped from the list of the unbeaten when it tackles Davis and Elkins, the giant killers who toppled West Virginia and Navy. Boston College, unbeaten and untied, has a possible Tartar on its hands in the Connecticut Aggies, who have rolled up a total of 96 points to none for their minor opponents on the New England circuit.

Says Interference Being Cleared Up

Also Declares Trouble In Change Of Wave Lengths Is Being Remedied

According to a DX fan who writes The News, the gentleman who wrote the radio letter in last Saturday's News, is not familiar with radio, or else has not given much study to the science.

DX asserts that the interference mentioned is not caused by a spark set but is local interference. He says that the Electric company has had a trouble shooter out for a number of days scouring the North Hill district and located a defective heating pad. There is still a big leak somewhere near the Albert street school he states.

Speaking upon the change in wave lengths, DX says that the reason for the difficulty in locating them thus far is that the stations have been testing and that it took a week for WTAM to come through. The weather, he says has been against radio, but that if the fans will be patient, the thing will clear up.

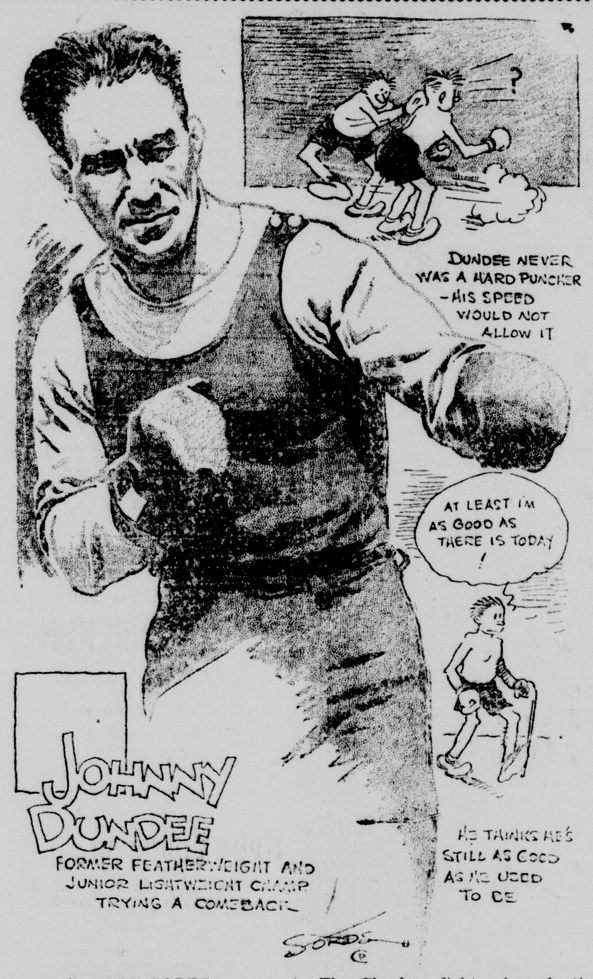
SORDS POINTS

Dundee Still Hopeful At Thirty-Five



By JACK SORDS
Sports Cartoonist-Writer for Central Press and New Castle News

Johnnie Dundee, long may wave that good right fist of his beneath the noses of aspiring pugilists!

Dundee is one battler upon whom the years sit lightly. The former feather and junior lightweight champion thinks he still is as good as ever.

He was pretty fair the other night when he put Gaston Charles, the French fisticuffer, in his place.

That was Johnnie's first fight since he was sadly outclassed by Tony Canzoneri, over a year ago. So it was a sort of comeback for Jawn.

The Charles fight showed that Johnnie still possesses his old ring skill, but in speed and vigor he seems far removed from the slashing little Italian he was in years gone by.

He had speed and his timing was perfect in those days. He punched often and clean. There were little of those Dundee characteristics displayed in the Charles fight.

And no wonder. He is 35 years old. He began fighting in 1910 and has fought in something like 500 battles. He won the feather crown from Eugene Criqui in 1923, and a year later became junior lightweight king after leaving the feather ranks.

WOMAN JUMPS OUT CAR WINDOW, ESCAPES

YOUNGSTOWN, O., Nov. 20—Police of Northeastern Ohio are searching for Mrs. Helen Sargent 23 alleged woman swindler who escaped while being taken to the Marysville reformatory to serve a sentence of one to three years. She jumped through a window of the train at Crestline Junction after she had been permitted to go to the womans rest room.

Before she started for the reformatory the woman boasted that she would escape enroute. She was sentenced here for issuing bad checks.

SPORTS DONE BROWN

By NORMAN E. BROWN

Texas football enthusiasts believe their section of the country can present two or three grid stars well qualified for consideration on all-American elevens. And one of them is Gordy Brown, star tackle with the Texas University eleven.

"A line in himself" is the tribute paid Brown. He is a stonewall defensive player, a wizard at deciphering the opposition's plays and nipping them in the bud, an a battering ram on offense.

One enthusiastic critic who has followed college football in the Southwest for many years, rates Brown as an all-time all-Southern star.

Another booster for the husky tackle says: "He was all-Southern Methodist needed to beat the Army. Had he been in their line the Methodists would have come home with the Army's campaign hat."

* * *

Southwestern football fans have just been given a knotty grid problem to mull over.

"Dusty" Boggess, who plays baseball in the Texas League in summer and referees collegiate football in the fall, was witnessing a high school game in San Antonio.

As he tells the story, the game went into the final minutes, with the score close. One of the players finally carried the ball on a brilliant run, down to the opponents' 20-yard line. The safety man of the opposing team loomed before him at that point. The player felt that the fate of the game depended on his ability to score on the play. Directly in front of the goal posts he stopped in his tracks and, with the safety man bearing down on him from an angle, dropkicked a goal from the field.

The quick-witted player's teammates claimed the points—which were enough to give them the victory. The referee, however, refused to rule on the play, leaving the outcome of the game in doubt.

And Boggess' comment on the play is that the runner should be given the three points for his quick thinking, if for no other reason.

It's one for the book, anyhow.

Start Handball Tourney At Y. M.

Members of the Y. M. C. A. physical department have started a handball tournament which will continue until January 1, states Walter Kirker, physical director. The first games were played Monday afternoon and Julius Markley took the lead with a win of three straights.

The players rotate each game so that they have different partners. This will give the players who perhaps are not as experienced as some a better chance.

The fellows who are in the tournament are: Samuel Maxwell, Carl Paisley, James Clark, John Preston, James Thomas, Julius Markley, Morris Markley, Oscar Levine, Earl Dart, Archie Slovonsky, Walter Kirker and R. L. Meermans.

N. Y. STOCKS

(International News Service)

NEW YORK, Nov. 20.—Bulls in the stock market tightened their grip on Radio stock as the bears fled in a mild panic at the beginning of trading today. Radio soared another 22 points to 355 in the first half hour, and reports of a "private settlement" for the unfortunate bears, who have seen the stock sky-rocket 117 points in two weeks, floated around the street.

Radio is cornered by a band of powerful and daring operators, and unless the stock exchange governors come to their rescue, the shorts are in a fair way to lose millions of dollars in this sensational squeze. The big corporations which hold Radio in their treasuries have no stock for sale.

Anaconda Copper jumped up 3 points to above 112 and higher prices were quoted for Kennecott and Greene Cananea.

True to form, the rails were displayed to their best advantage. The big roads are buying up the stocks of the little roads with a view to gobbling them up as soon as the Commerce Commission gives its approval. Western Maryland, Wabash, Erie, and the "merger rails"—Kansas City Southern, St. Louis Southwestern, etc., sold up a few points; New York Central led the dividend payers.

Liquid Carbonic, the airplane stocks and Victor Talking Machine soared about 5 points above the slow moving industrial list in the second hour. Moving picture and theatrical stocks, under the lead of Keith Albee, performed for the benefit of the bulls, and the high-priced specialties boomed along with powerful backing. There was money in abundance for the stock market with the call loan rate 6½ per cent.

Motion Picture Star Buys Baseball Team

(International News Service)

HOLLYWOOD, Calif., Nov. 20.—Just to keep himself fit and amused Reginald Denny has bought a baseball team. It's a Hollywood aggregation in a semi-pro league. The team is now known as the Reginald Denny Hollywood Stars.

Omaha Hunting Fiend Murderer

Three Persons Are Killed And Two Others Are Wounded

WOMAN CAPTIVE IN SWAMP FOR HOURS

(International News Service)

OMAHA, Neb., Nov. 20.—Three persons are dead, one is probably fatally injured, and a woman is suffering from blows inflicted when she was kidnaped and held in East Omaha swamps for three hours last night, according to a check-up by police into recent activities of Omaha's latest fiend murderer.

The victims are James Blackman, 74, who was found today beaten to death in his home; Gertrude Resso, wife of a milkman, "pounded to death" before her children shortly after J. Resso, the husband, left on his route; Creda Brown, Mrs. Resso's sister, found lying in the Resso home beaten to death upon a bed; Mr. and Mrs. G. Harold Stribling at their Carter Lake home, beaten early today.

Stribling was probably fatally injured. Mrs. Stribling was kidnaped and held captive three hours in the swamp and attacked, according to police.

Freeing herself, Mrs. Stribling returned to the city and told police. Stribling is a former high school football star. His wife is a graduate of the University of Nebraska and both come from prominent families.

Mrs. Stribling described her attacker as "a light-skinned negro about 21, five feet seven inches tall, wearing a gray suit."

The 18-months-old daughter of the Striblings was unharmed.

The attacker entered the front door and locked it, Mrs. Stribling told police.

Bulletin Calls For Protection Of Child Labor

Pennsylvania Law Does Not Meet Standards, Says Interior Department

(Special To The News)

WASHINGTON, D. C., Nov. 20.—Leaders in industrial activities of New Castle may be interested in a bulletin on "Pennsylvania's Rank in Child Labor Protection" which has been completed for publication by the Consumers League of Eastern Pennsylvania. The department of the interior here has been notified that copies of the bulletin may be procured from the league headquarters in Philadelphia.

The bulletin according to the interior department contains lists showing the states which have set 15 or 16 years as the minimum age limit for the employment of children in industry the states which have established an eight hour day and a 48-hour week and the states with night work prohibitions, giving hours prohibited.

The bulletin calls attention to the fact that Pennsylvania's law does not meet these standards and appeals for support for progressive legislation the department of the interior states.

The league, the department announces in the next legislature will urge a bill providing double compensation for minors injured in Pennsylvania while illegally employed.

Seventeen Dead, Ten Million In Damage In Flood

Middle West States Suffer Heavy Losses By Uncontrolled Flood Waters

THOUSANDS ARE MADE HOMELESS

(International News Service)

Uncontrolled flood waters in the middlewestern United States today had claimed seventeen lives and had caused damage estimated at more than $10,000,000.

The thousands homeless in Missouri Oklahoma and Kansas watched with relief today a gradual ebbing of the raging waters which revealed more clearly the stark havoc and ruin the floods had caused. A survey indicated the floods were the most disasterous these states had ever known.

Kentucky and Illinois, too, felt the disaster. The fury of the released water of the Cumberland and Kentucky rivers flooded vast areas, destroying crops and homes and claimed three lives.

During the night and early hours today the Mississippi river in Southern Illinois continued to rise to a new height of 17.5 feet, flooding the lowlands. At noon a slight recession of the waters was noted.

Mackey And Reed Recount Expenses Of Being Elected

(International News Service)

HARRISBURG, Nov. 20.—Mayor Harry A. Mackey, Philadelphia spent $2,700 to be elected a Republican presidential elector while Senator David A. Reed expended $1,081.83 in his campaign for re-election to the United States senate, returns filed with the state bureau of elections showed today.

Mackey gave $1,500 to the Hoover-Curtis committee.

The acounts of Senator Reed showed a $1,000 contribution to the Republican state committee while the remainder of the expenditures were accounted for in traveling expenses.

The election bureau today received official returns from Erie, Lebanon, Lehigh and York counties. The total returns received leave 24 counties yet unrecorded.

Control Of Apple Scalds Explained By Government Book

Bureau Of Plant Industry Issues Booklet Depicting Apple Disease

By ARTHUR C. WIMER
Special Washington News Correspondent

WASHINGTON, D. C., Nov. 20.—Apple growers, dealers and storage companies of Pennsylvania will do well to consult the bulletin of information just issued by the department of agriculture on "Apple Scald and Its Control," Dr. Charles Brooks of the bureau of plant industry believes.

The disease is familiar to apple dealers and consumers but may be unknown to the grower except as it effects the returns from the crops, according to Dr. Brooks. He believes, however, that the grower, as well as the dealer and consumer, should familiarize himself with the problem of control of the disease because control measures must start in the orchard.

In his bulletin, Dr. Brooks stresses the necessity of cooling apples as soon as they are picked and advises that they be stored in ventilated baskets, barrels or hampers.

The bulletin may be procured free of charge from the department of agriculture, Washington.

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle

This colyum is seldom used for advertising purposes. Corn plasters and chin straps, ear muffs or garters have no place here, neither does anything else that would be considered advertising. But rules are elastic even on newspapers, and occasionally a little something goes through.

Which is the reason for advertising a ball today. A regular bang-up ball with lots of music and everything that goes for success, with the date being set for December 25.

It's the annual Policeman's Ball, the Cop's Hop, or whatever you want to call it. Every year the force holds a ball, the profits of which go to the relief fund. The policeman on your beat has them for sale and it would be a small courtesy for you to ask him for a ticket. They cost a dollar each.

It won't hurt you a bit to buy a ticket whether or not you go. Every day and every night in the year you have the protection of the blue coats, and no matter the weather they are on the job. If once a year they ask you to buy a ticket at a dollar, you have small reason to complain.

The policeman on our beat down here, William Tyrell, doesn't fool with single sales. Bill puts them out in pairs and fives and thus far has disposed of 50. You can't resist that sales argument of his and the engineer wishes to remark that he has a pair of the ducats.

This promises to be a fine night for roaming, and the schedule calls for a little roaming around with the druggists. The boys have a party of some kind of other down in Pittsburgh this evening and that means several of us go down with them.

This is the season for the Iron Mike. Those hard hats which have reposed on the cupboard shelf peacefully all summer are now out in their pristine glory, ready for another season of hard wear. That's one nice thing about Iron Mike. You can wear it for seven or eight years and then give it a coat of printer's ink and it's new.

If some hatter would design an Iron Mike for the women.

C. Of C. Directors Will Meet Thursday

Members of the board of directors of the New Castle Chamber of Commerce will have their regular meeting Thursday, November 22. at 12:15 p. m. in the Elks club. This will be a dinner meeting.
